Palm Beach County, Florida
Financial Project ID: 229664-6 and 229664-7

Public Meeting Agenda

The Public Meeting was conducted in both virtual and in-person formats on separate dates. The virtual meeting was held via GoToWebinar, with advanced registration available through a dedicated link. Information for both meeting formats was provided in advance, including a QR code for easy access. Project details were also made available at www.sr7extension.com, and questions or comments could be submitted prior to the meeting through the project website or by emailing the project manager.

Tuesday, February 24, 2026 (Virtual), 5:30 p.m.

The virtual presentation was held at the Florida Department of Transportation's District 4 office. A dedicated GoToWebinar registration link, <https://register.gotowebinar.com/register/5035207354310128733> was provided in advance. Participants also had the option to join by phone by dialing +1 (562) 247-8422 and entering access code 523-832-987.

The virtual meeting began at 5:30 p.m. Consultant Community Outreach Specialist Amy Lee Diel opened the meeting by welcoming attendees and initiating the presentation. A comprehensive overview of the project design concepts was presented to the virtual audience.

During the presentation, the following project team members were available via the chat feature to respond to comments and questions submitted by attendees: FDOT Project Manager Scott Peterson, P.E.; FDOT project staff James Poole, P.E., Shandra Davis-Sanders, CPM, and Ann Broadwell; and consultant project staff Janette Lachowski, P.E., Ronald Wallace, P.E., Sandy Scheda, Casey Hack, and Amy Lee Diel.

Additional project team support was provided by FDOT staff Guillermo "Billy" Canedo, Sebastian Ruiz, Melanie Straub, P.E., Gerald Bellarmine, P.E., and Brad Salisbury, P.E.; Stantec staff Carlos Nava; and Quest staff Yasmirel Reynoso and Diane Del Rio.

**Florida Department of Transportation (FDOT), District Four
Design Project**

State Road (S.R.) 7 Extension Project
From S.R. 704/Okeechobee Boulevard to Northlake Boulevard
Palm Beach County, Florida
Financial Project ID: 229664-6 and 229664-7

Following the presentation, FDOT Project Manager Scott Peterson, P.E., appeared on camera and provided additional project information to meeting attendees. The presentation and a recording of the virtual meeting are available on the project website. A copy of the presentation is included in **Appendix A**.

Thursday, February 26, 2026 (In-person), 5:30 p.m., Royal Palm Beach Cultural Center, 151 Civic Center Way, Royal Palm Beach, Florida 33411.

The in-person meeting began at 5:30 p.m. Consultant Community Outreach Specialist Amy Lee Diel, opened the meeting by welcoming attendees and introducing FDOT Project Manager Scott Peterson, P.E., who provided opening remarks. A comprehensive overview of the project design concepts was then presented to the attendees.

Before and after the presentation, the following project team members were available to address comments and questions from attendees: FDOT Project Manager Scott Peterson, P.E.; FDOT project staff James Poole, P.E., Shandra Davis-Sanders, CPM, and Ann Broadwell; and consultant project staff Janette Lachowski, P.E., Ronald Wallace, P.E., Casey Hack, Amy Lee Diel, and Shannon Salter.

Additional support for the meeting was provided by the following FDOT staff: Guillermo “Billy” Canedo, John Krane, P.E., Paul Lampley, P.E., Cesar Martinez, P.E., Binod Basnet, P.E., Stefan Howard, Angie Hudiel, Roshini Shanmugam, Haiyan Ou, P.E., Dario Vanhorne, Kristin Williams, James Poole, P.E., Bill Scott, Eduardo Caballero, P.E., Actus Etienne, Nikolas Duing, Thuc Le, P.E., Melanie Straub, P.E., Matt Carlock, P.E., Brad Salisbury, P.E., Omid Fallahinejad, P.E., Rana Keel, Charlie Dominguez, Merlin Morciego, and Joe Marzi, P.E.

Consultant team members in attendance included: Stantec staff Donald Mattson, P.E., Carlos Nava, Malik Hardanian, and Eduardo J. Lopez; Stanley Consultants staff Amin Ahmed, P.E., Roberto Jimenez, P.E., and Cyndy Kendrick, P.E.; Environmental Science Associates staff Sandy Scheda and Nick Gadbois; K-F Group staff Hian Kor, P.E.; WGI staff Brett Fuller, P.E.; CEG Group staff Chris Jones; LLW Law staff Michelle Diffenderfer; and Quest staff Yasmirel Reynoso, Diane Del Rio, Bryce Johns, Tom Alexander, and Jessica Francois.

Florida Department of Transportation (FDOT), District Four Design Project

State Road (S.R.) 7 Extension Project
From S.R. 704/Okeechobee Boulevard to Northlake Boulevard
Palm Beach County, Florida
Financial Project ID: 229664-6 and 229664-7

The following project boards were displayed for attendees: a welcome board, Title VI board, three sets of the nine typical conceptual visualizations, and three sets of the project roll plot boards. Copies of all display boards are included in **Appendix B**.

The project team engaged with attendees and answered their questions until both meetings ended (6:29 p.m. for virtual and 7:15 p.m. for in-person). Parking was available to accommodate all the attendees, including people with disabilities. Signs were placed at the major intersecting roads and identified locations on the Royal Palm Beach Cultural Center grounds to direct attendees to the meeting location and from the parking lot to the meeting room.

Additionally, QR code signage was strategically placed both inside and outside the venue, allowing attendees to conveniently sign in and subscribe for project updates. This approach streamlined the registration process, minimized waiting times, and reduced long lines, enhancing overall efficiency and safe access to the meeting.

Public Notification

Meeting invitations included a letter and a project flyer. They were sent via email to elected officials, appointed officials, agency members, HOA Presidents, and interested people. 1,137 property owners and current tenants were mailed a letter and a project flyer via first-class mail. The invitations included dates, times, and locations for the virtual and in-person public meetings. Copies of the mailing lists, letters, and flyer are included in **Appendix C**.

Media Notification

The Final Public Meeting was advertised in advance with display ads in the Town Crier and the Palm Beach Post on Friday, February 20, 2026. A Final Public Meeting notification was placed in the Florida Administrative Register (FAR) February 17, 2026, Edition, Volume 52/Number 32. A press release was distributed by the Florida Department of Transportation (FDOT) to major local media outlets. Copies of the newspaper ad, Florida Administrative Weekly Register and the press release are included in **Appendix D**.

- **Quest Team:**
 - Casey Hack – Project Manager
 - Amy Lee Diel – Executive Vice President
 - Yasmirel Reynoso – Public Outreach Coordinator
 - Diane Del Rio – Public Outreach Coordinator

A copy of the virtual meeting attendee report and a copy of the in-person sign-in sheets are included in **Appendix E**.

Meeting Handouts

The project flyer, fact sheet, presentation slides, exhibits, and comment form were available for attendees to download from the GoToWebinar handouts section. Copies of these materials are included in **Appendix F**.

Public Comments

Written comments and questions received by the project team included:

- **Forty-six (46) written comments**
 - There was little to no mention of environmental impacts.
 - There was no mention of Grassy Waters Preserve.
 - There were several questions focused on noise walls, especially why they were not getting a wall, and litigation that was addressed live.
 - Any questions that were not addressed during the meeting were followed up in writing and posted on the project website for public review. The comment period remained open through March 3, 2026.

Did any public interactions or questions indicate that an individual may follow up with an elected official to elevate their concerns?

- Noise Barriers
- Participant raised concern about the need for FDOT to conduct an EIS, this individual has commented on this topic over the years. The response provided addressed the class of action.

- Commenter supports the project and believes it's a necessary step.
- Commenter supports the project and believes FDOT has improved their plans to protect the environment.
- Commenter supports the project and believes it will help future traffic growth.
- Commenter supports the project and believes it is critical for improving safety and reducing traffic.
- Commenter supports the project and believes that proper protection is in place.
- Commenter supports the project and believes this will help with the cutting though of traffic in the neighborhoods.
- Commenter has several questions regarding why certain decisions were made throughout the planning process.
- Commenter has questions regarding ROW and specific road connections.
- Commenter is concerned about the danger that the increased traffic will create.
- Commenter asks the project team to take the environment into consideration immensely.
- Commenter supports the project and the connectivity it will bring.
- Commenter supports the project and not having to detour.
- Commenter is concerned about the noise, traffic, and protected species.
- Commenter supports the project and noted the future relief of traffic congestion.
- Commenter supports the project and believes that it should have happened sooner.

Comments and responses are included in **Appendix G**.

Tallahassee, Florida 32399
(850) 414-4764
aldrin.sanders@dot.state.fl.us

All inquiries or concerns will be handled according to FDOT procedure and in a prompt and courteous manner.

Public Involvement

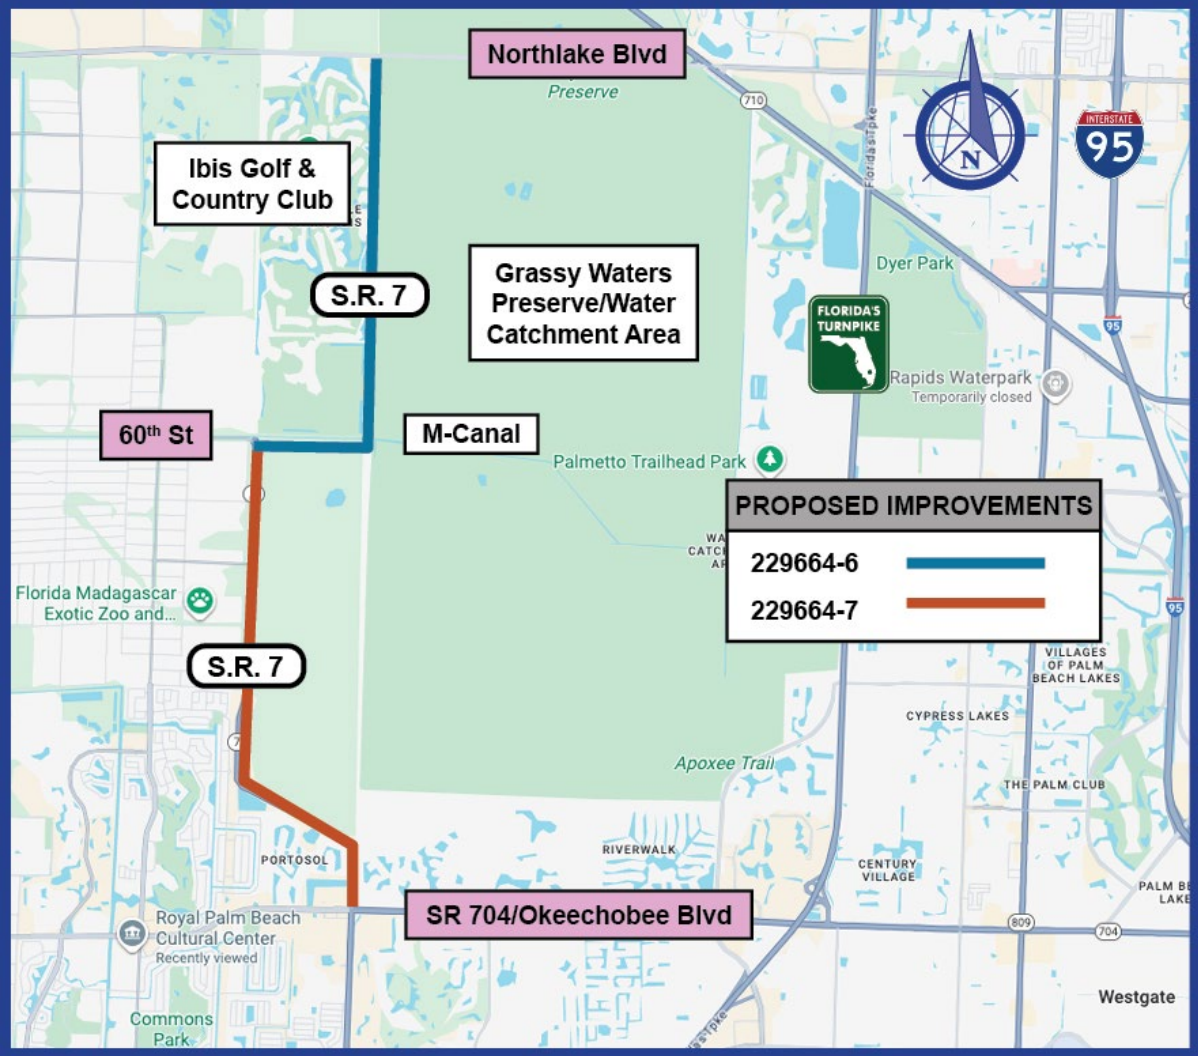

There are several ways to be involved:

- Complete a comment form from the welcome table or scan the QR code to fill out the form virtually. Comment forms may be dropped in the comment box or handed to a project representative.
- Email comments to FDOT Project Manager **Scott Peterson, P.E.** at Scott.Peterson@dot.state.fl.us.
- Visit the project webpage at www.sr7extension.com to submit comments online.

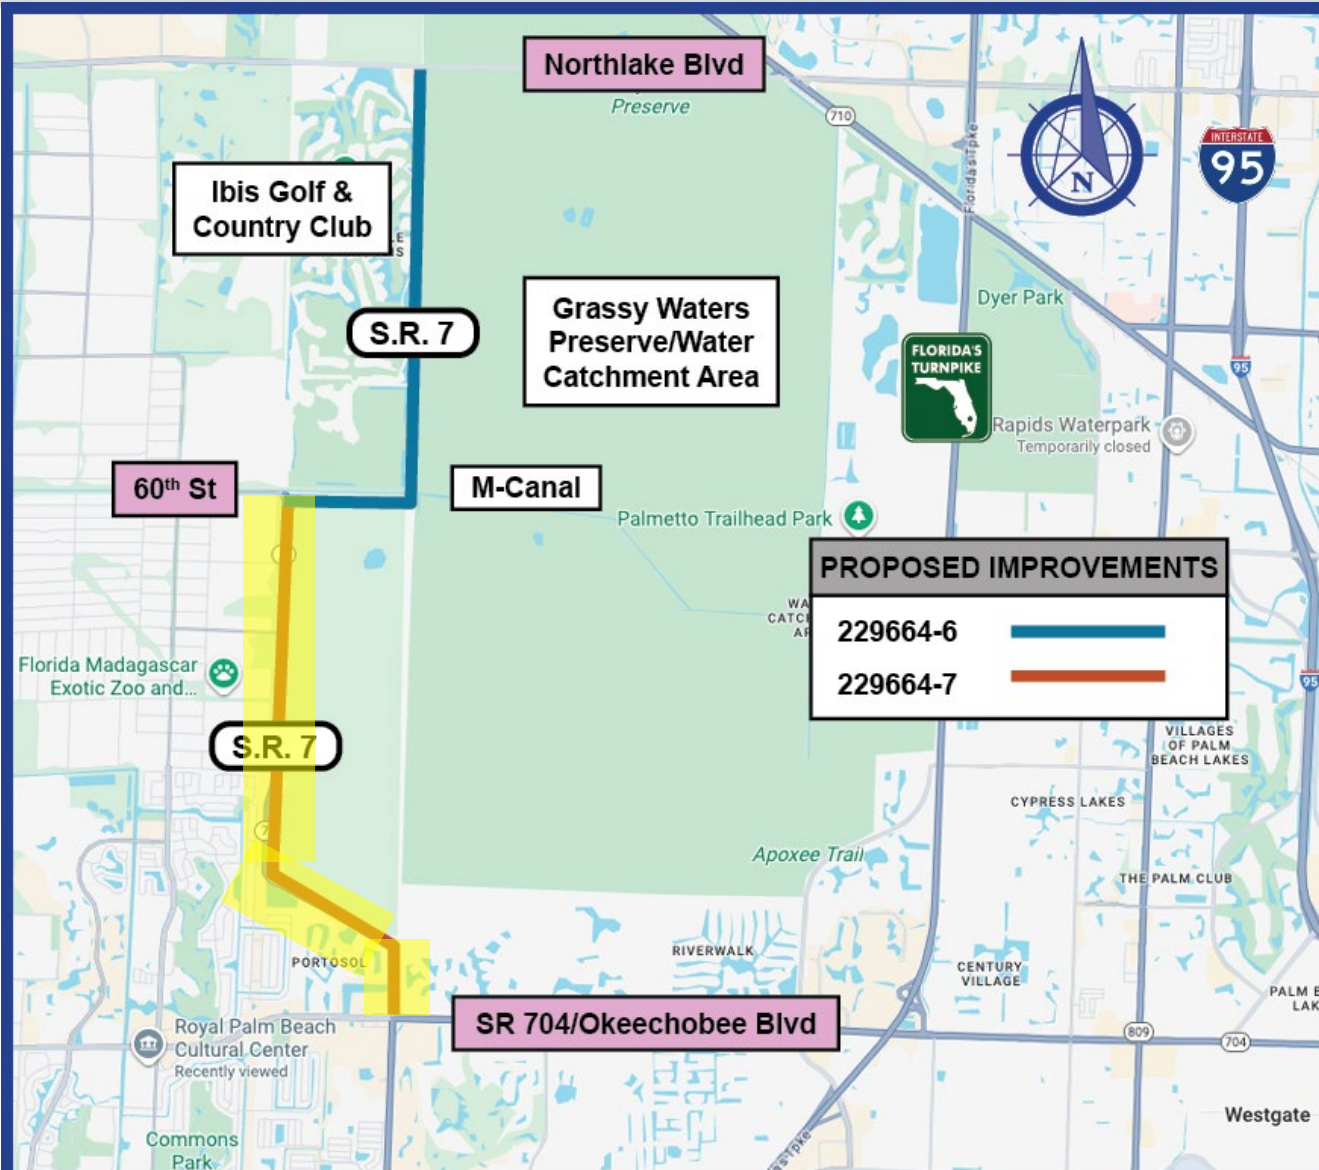

Project Location and Overview

Project Location

S.R. 704/Okeechobee Boulevard to Northlake Boulevard (Financial Project IDs: 229664-6 & 229664-7)

Project Overview

229664-7 Project

Project Limits: S.R. 7 from Okeechobee Boulevard to 60th Street North

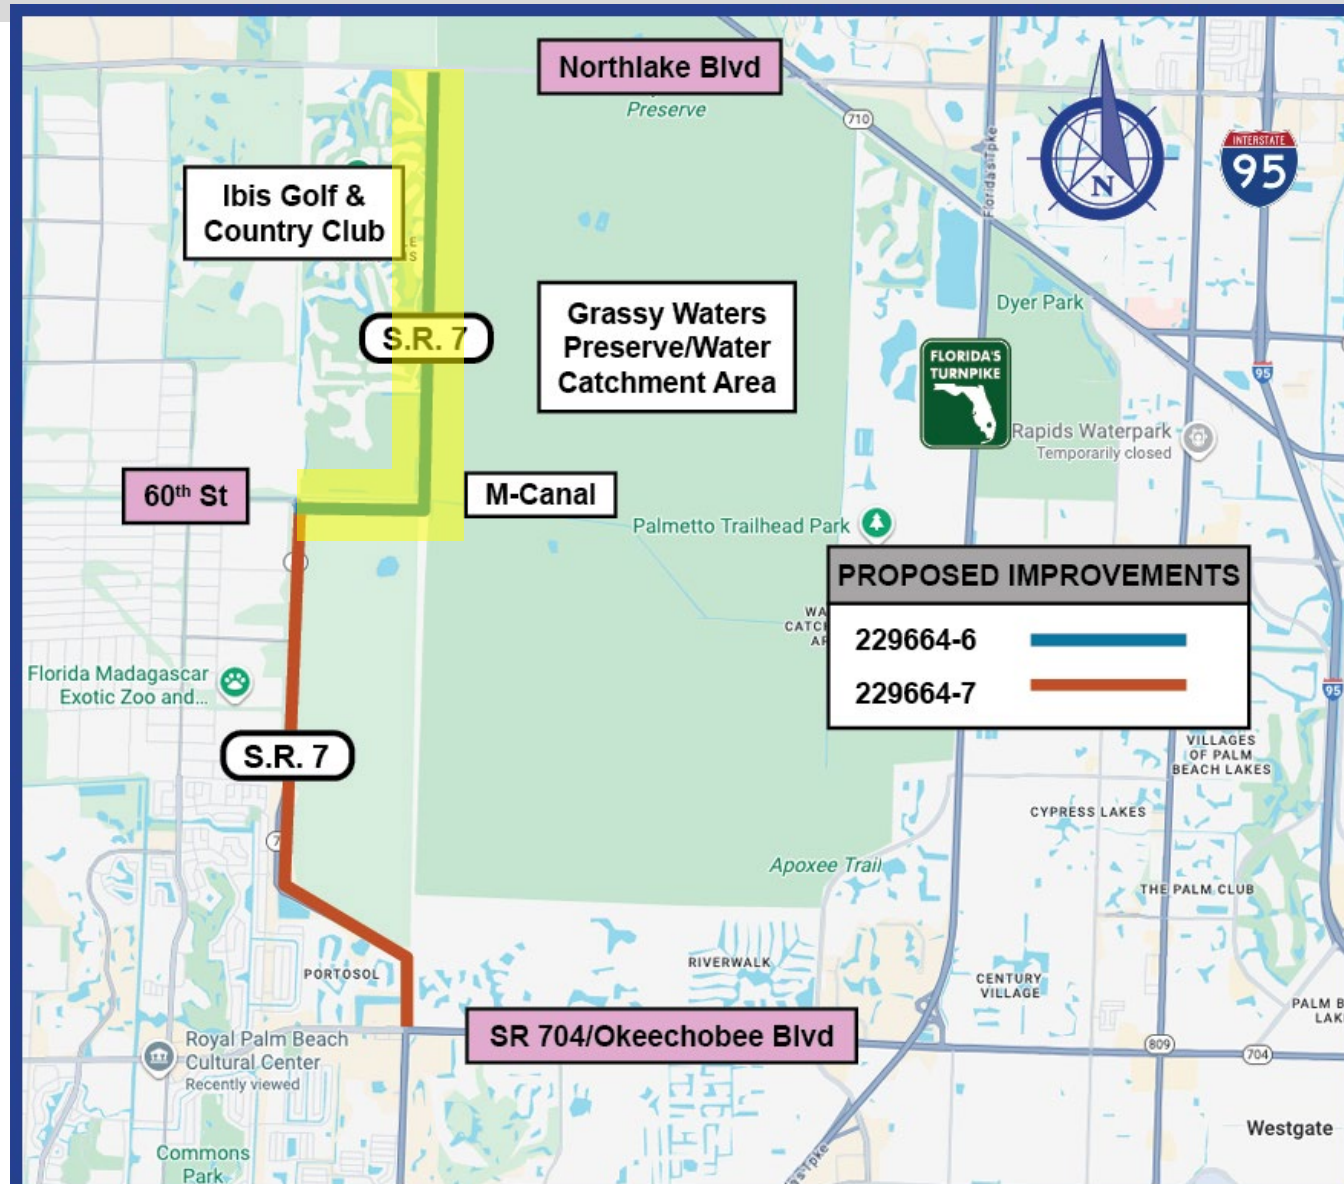

Existing Conditions:

- 2- Lane Roadway with Bike Lanes, Curb and Gutter, Sidewalk, and Fence

Proposed Improvements:

- Add two new travel lanes between Okeechobee Boulevard and 60th Street North
- Reconstruct the 60th Street North roundabout

Project Overview

229664-6 Project

Project Limits: S.R. 7 from 60th Street North to Northlake Boulevard

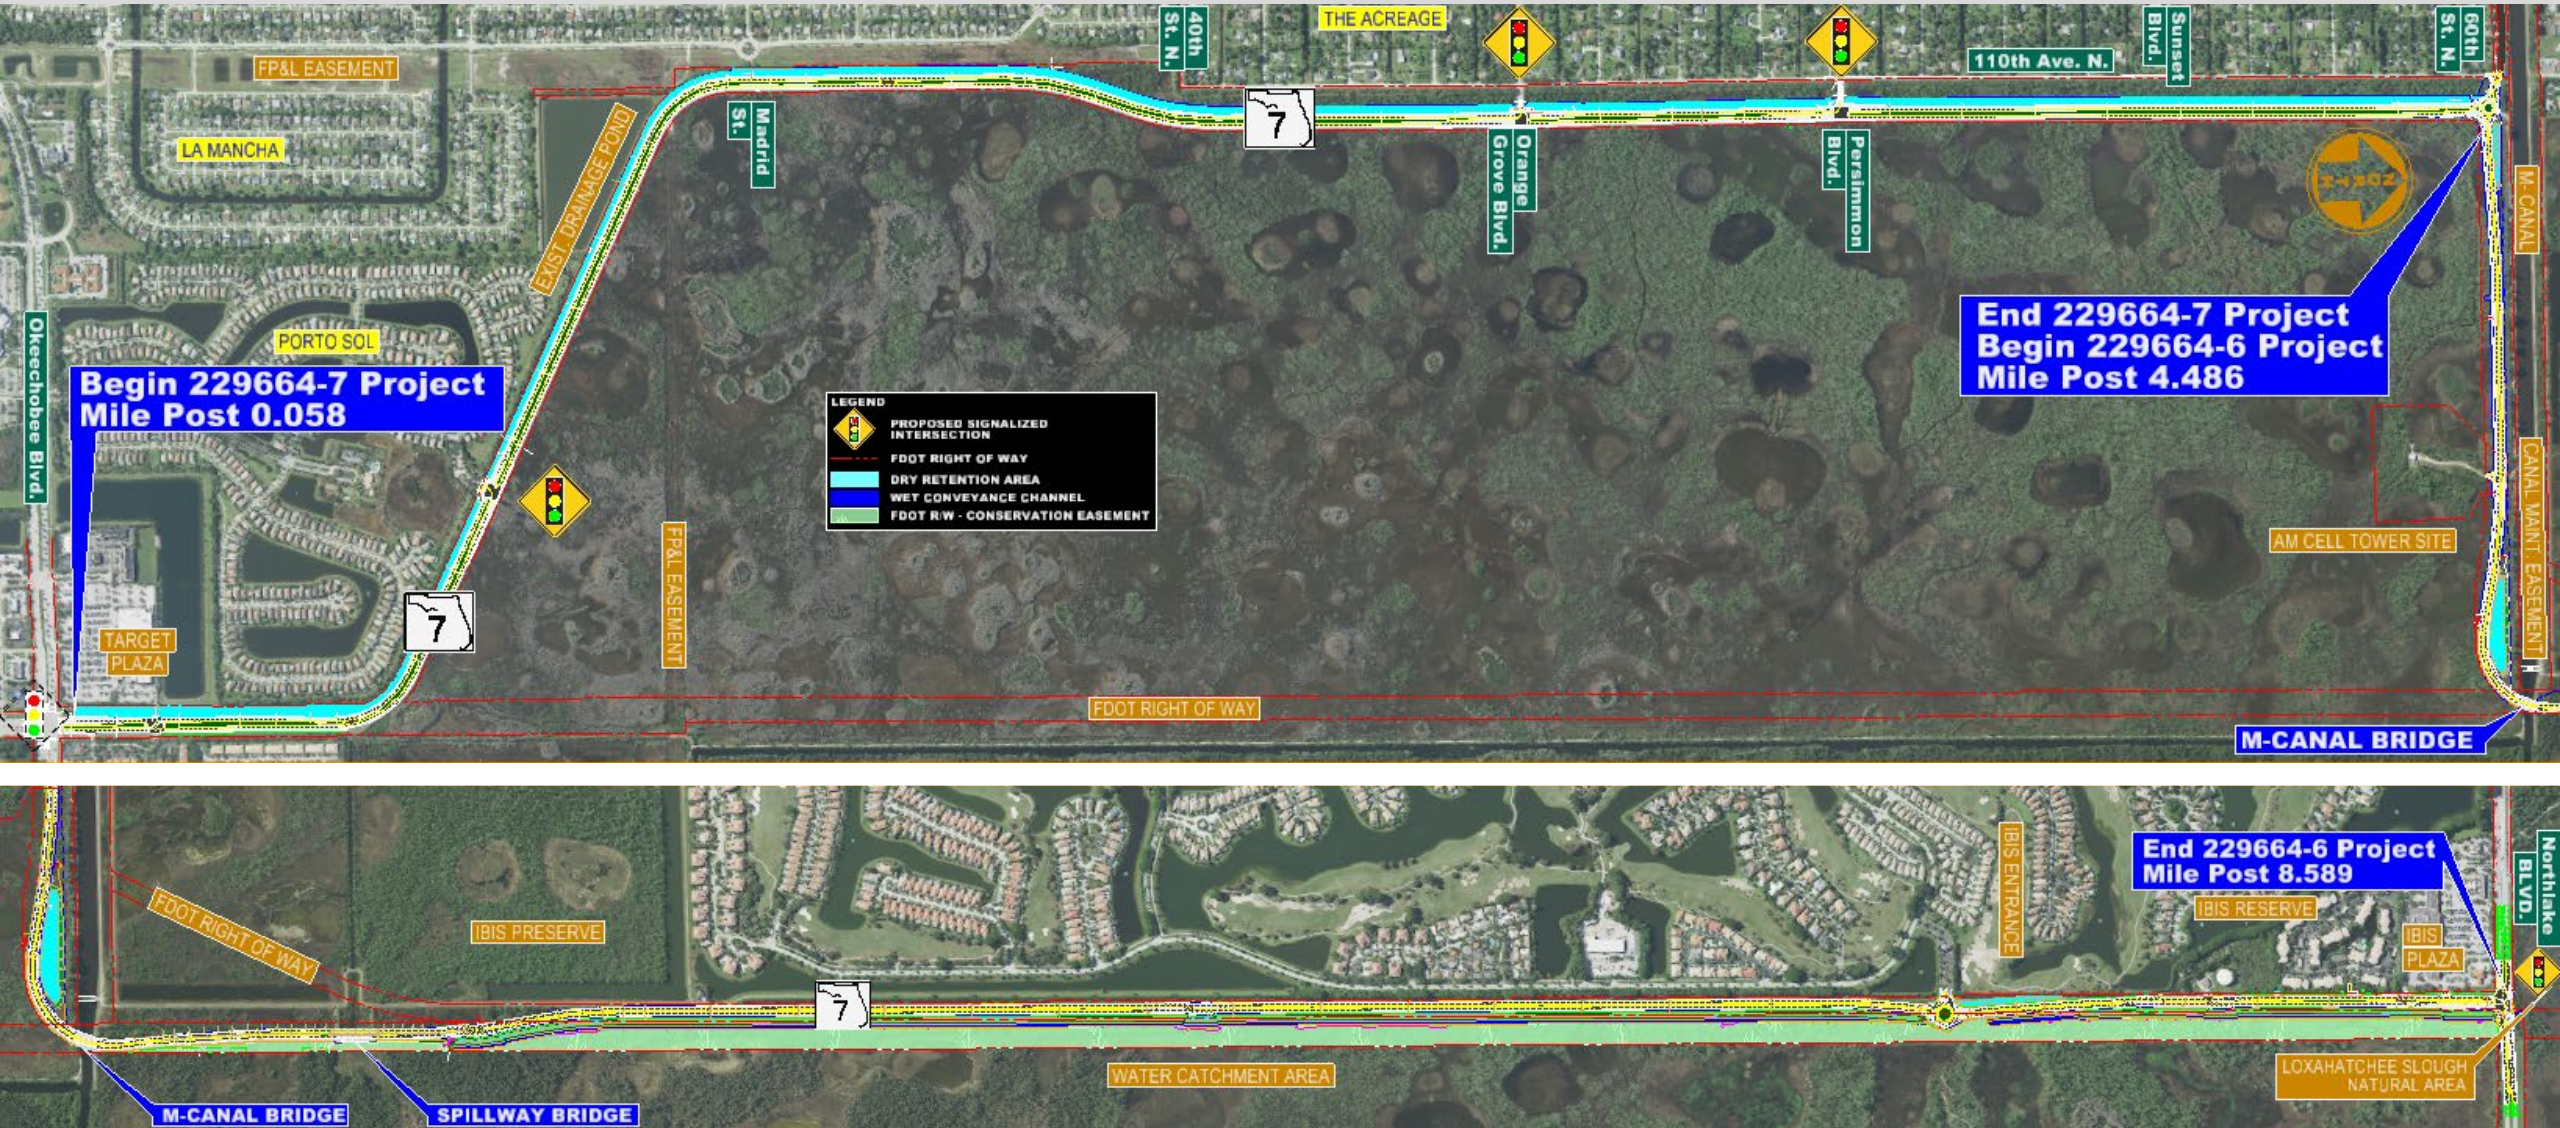

Existing Conditions:

- 2 - Lane roadway from the east service entrance at Ibis Golf and Country Club to Northlake Boulevard
- Existing sidewalk and fence

Proposed Improvements:

- Construct a four-lane divided roadway from 60th Street North to Northlake Boulevard
- New Roundabout at Ibis Golf & Country Club East Service Entrance
- Construct bridges over the M-Canal and the Ibis Preserve spillway.

Overview

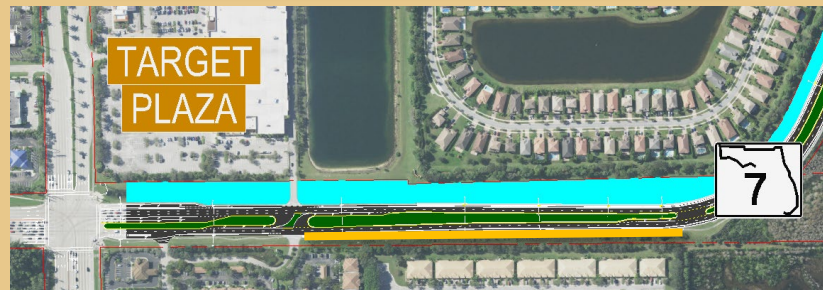

Project Commitments

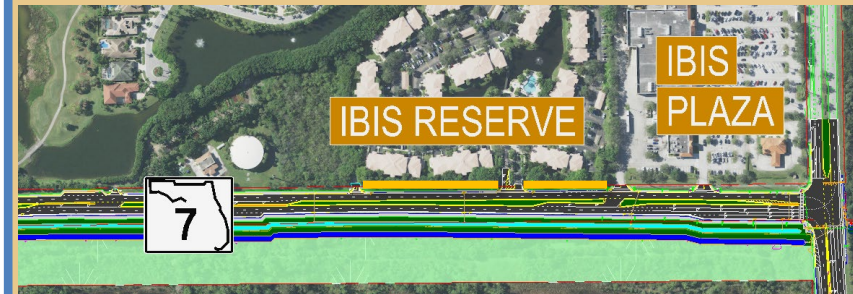

- Implement measures to protect snail kite and its foraging habitat. Conversion of 213+ acres of transportation right of way that is high quality snail kite habitat to preservation area with a perpetual conservation easement.
- Provide roundabout at the east service entrance to the Ibis Golf and Country Club community
- Include wildlife fencing along the east and south sides of the corridor and wildlife crossings
- Implement reasonable and feasible noise abatement measures
- Provide robust wetland mitigation equivalent to 709 acres of wetland restoration to offset 56.75 acres of wetland impact.

Proposed Noise Barriers

- 16' High Noise Barrier at Baywinds
- 20' High Noise Barrier at Ibis Reserve

16' High Noise Barrier at Baywinds

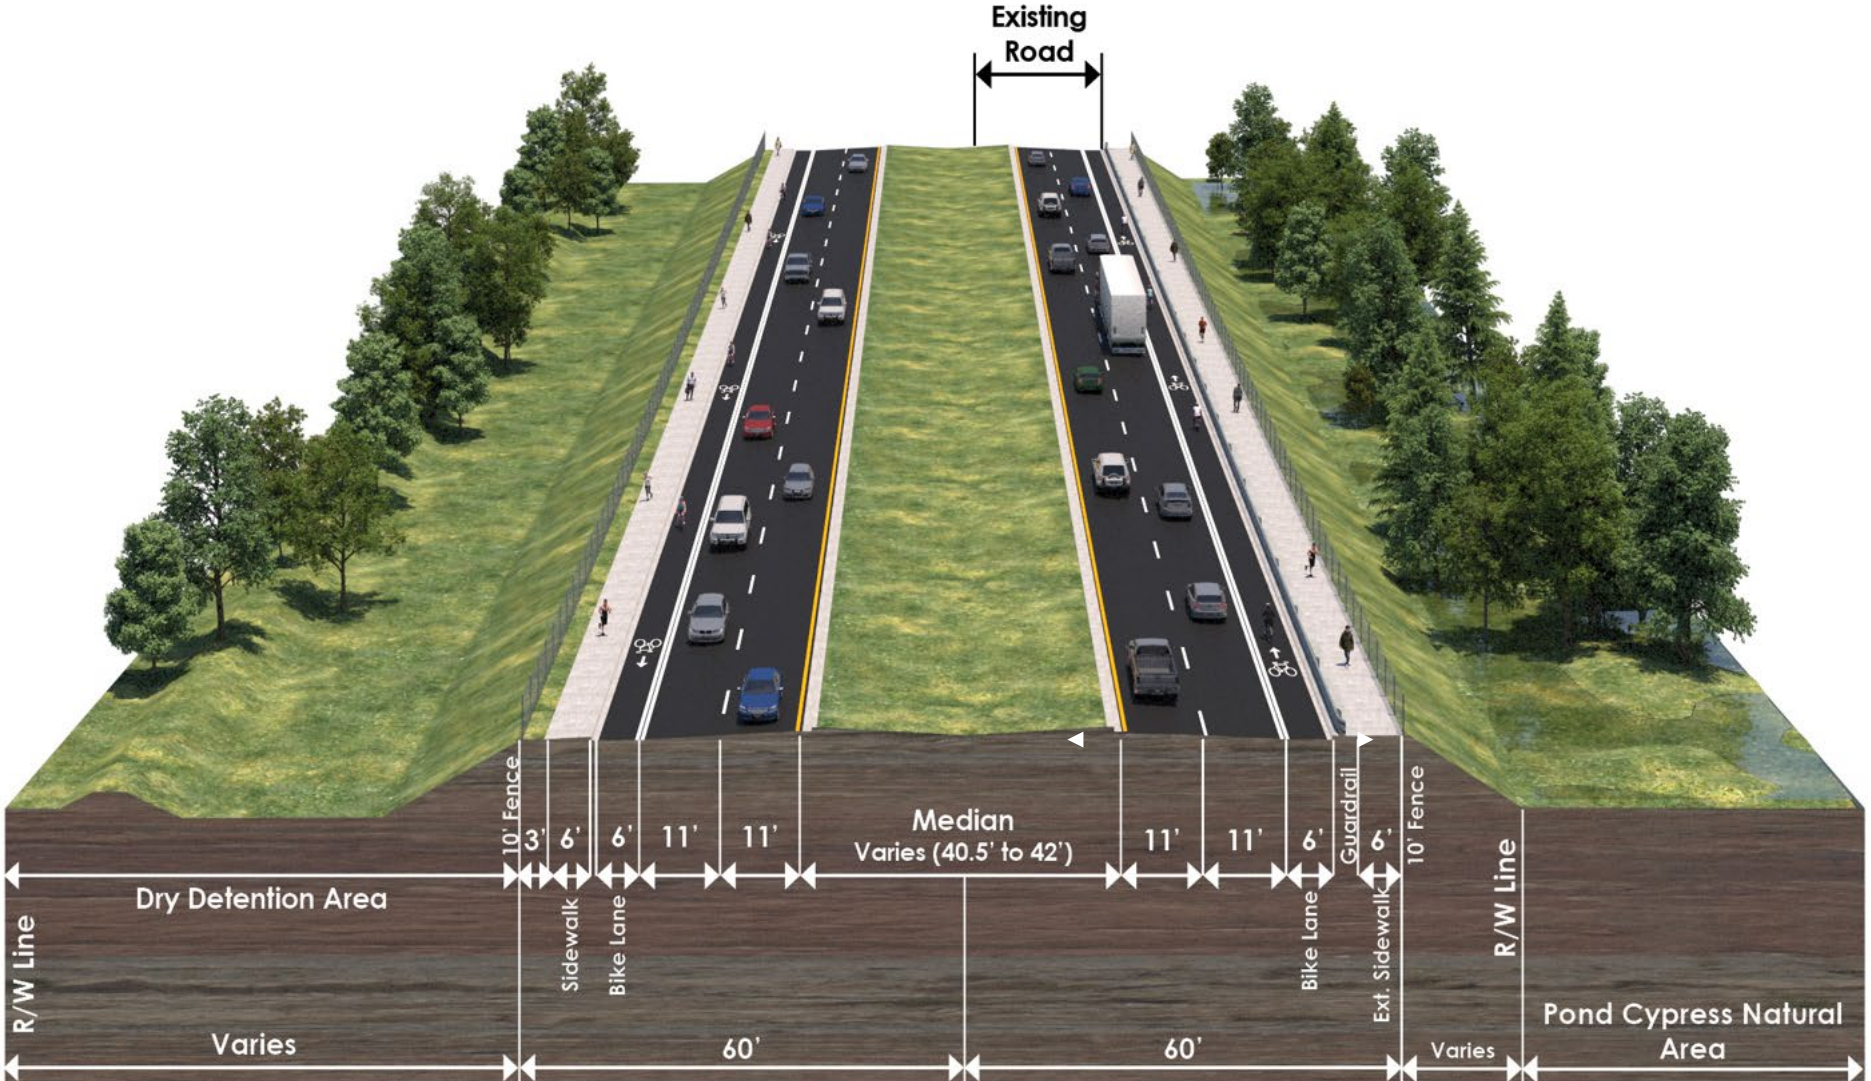

20' High Noise Barrier at Ibis Reserve

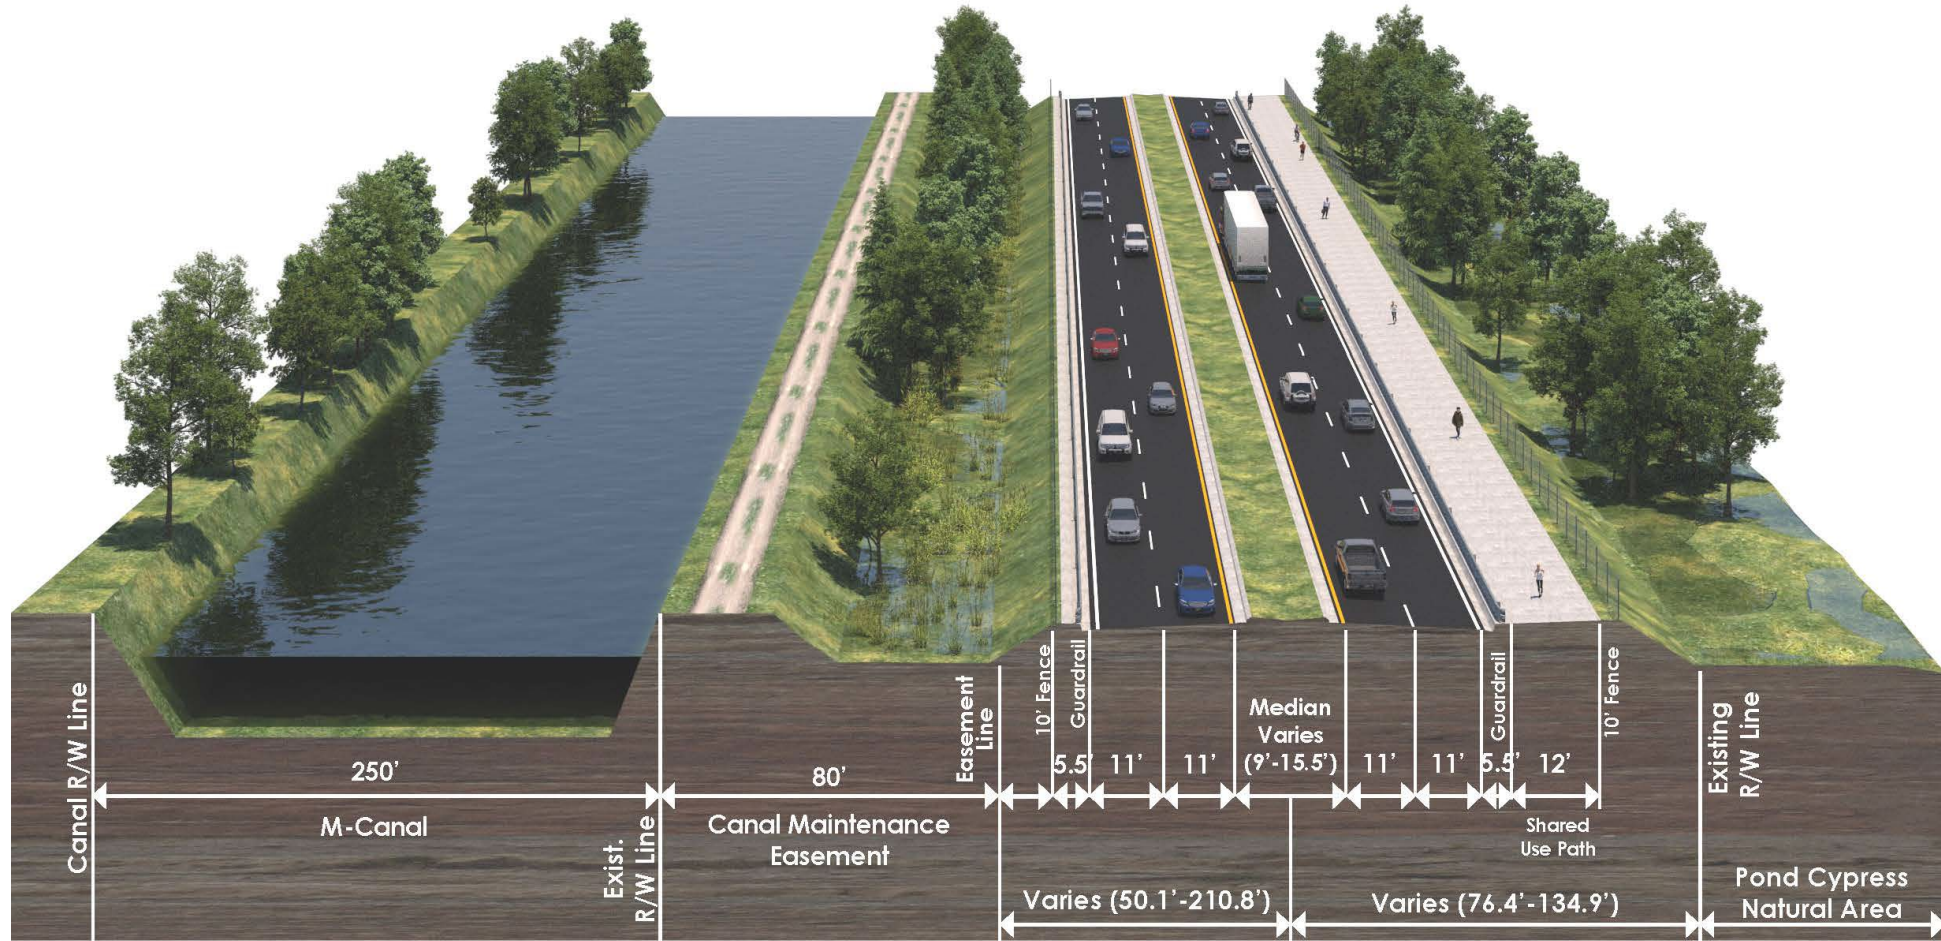

Reductions to Environmental Impacts

- Reduced median width from 22' to 15.5' east/north of 60th Street North
- Replaced sidewalks and on-street bike lanes with a shared use path east/north of 60th Street North
- Eliminated direct outfalls to Ibis Lakes system and Water Catchment Area (Grassy Waters Preserve)
- Added retaining walls to reduce footprint and further minimize wetland impacts
- Redesigned Ibis spillway bridge to eliminate pilings in water
- Eliminated an open swale south of M-Canal to reduce footprint

Project Location and Overview

Project Location

S.R. 704/Okeechobee Boulevard to Northlake Boulevard (Financial Project IDs: 229664-6 & 229664-7)

Project Overview

229664-7 Project

Project Limits: S.R. 7 from Okeechobee Boulevard to 60th Street North

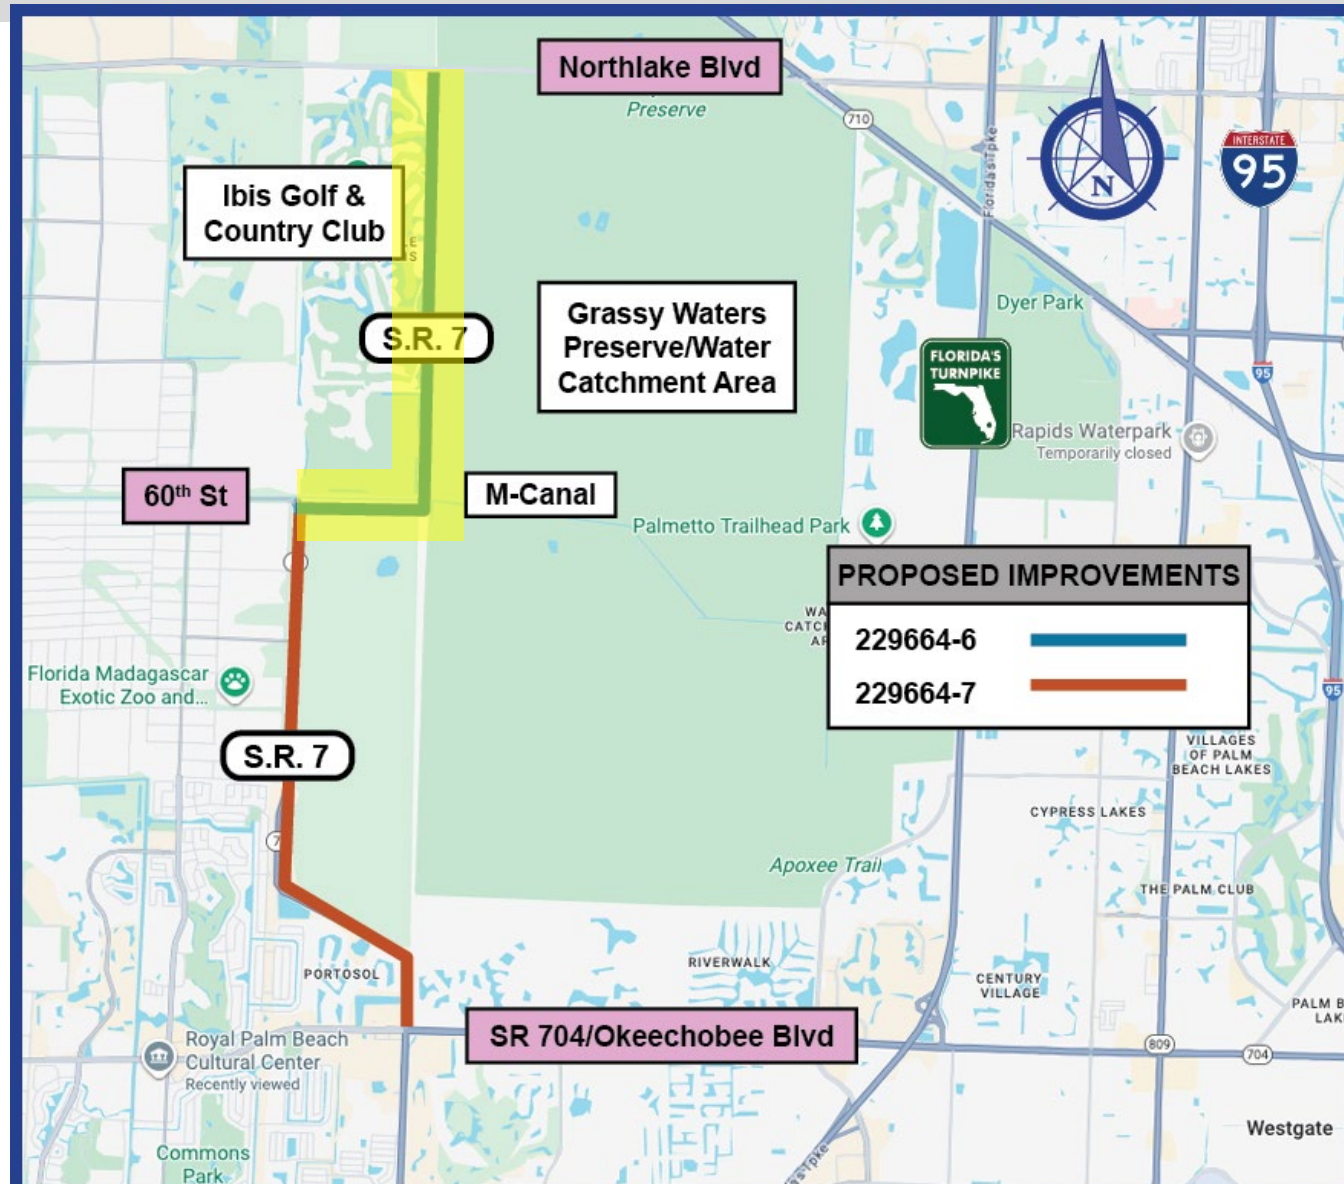

Existing Conditions:

- 2- Lane Roadway with Bike Lanes, Curb and Gutter, Sidewalk, and Fence

Proposed Improvements:

- Add two new travel lanes between Okeechobee Boulevard and 60th Street North
- Reconstruct the 60th Street North roundabout

Project Overview

229664-6 Project

Project Limits: S.R. 7 from 60th Street North to Northlake Boulevard

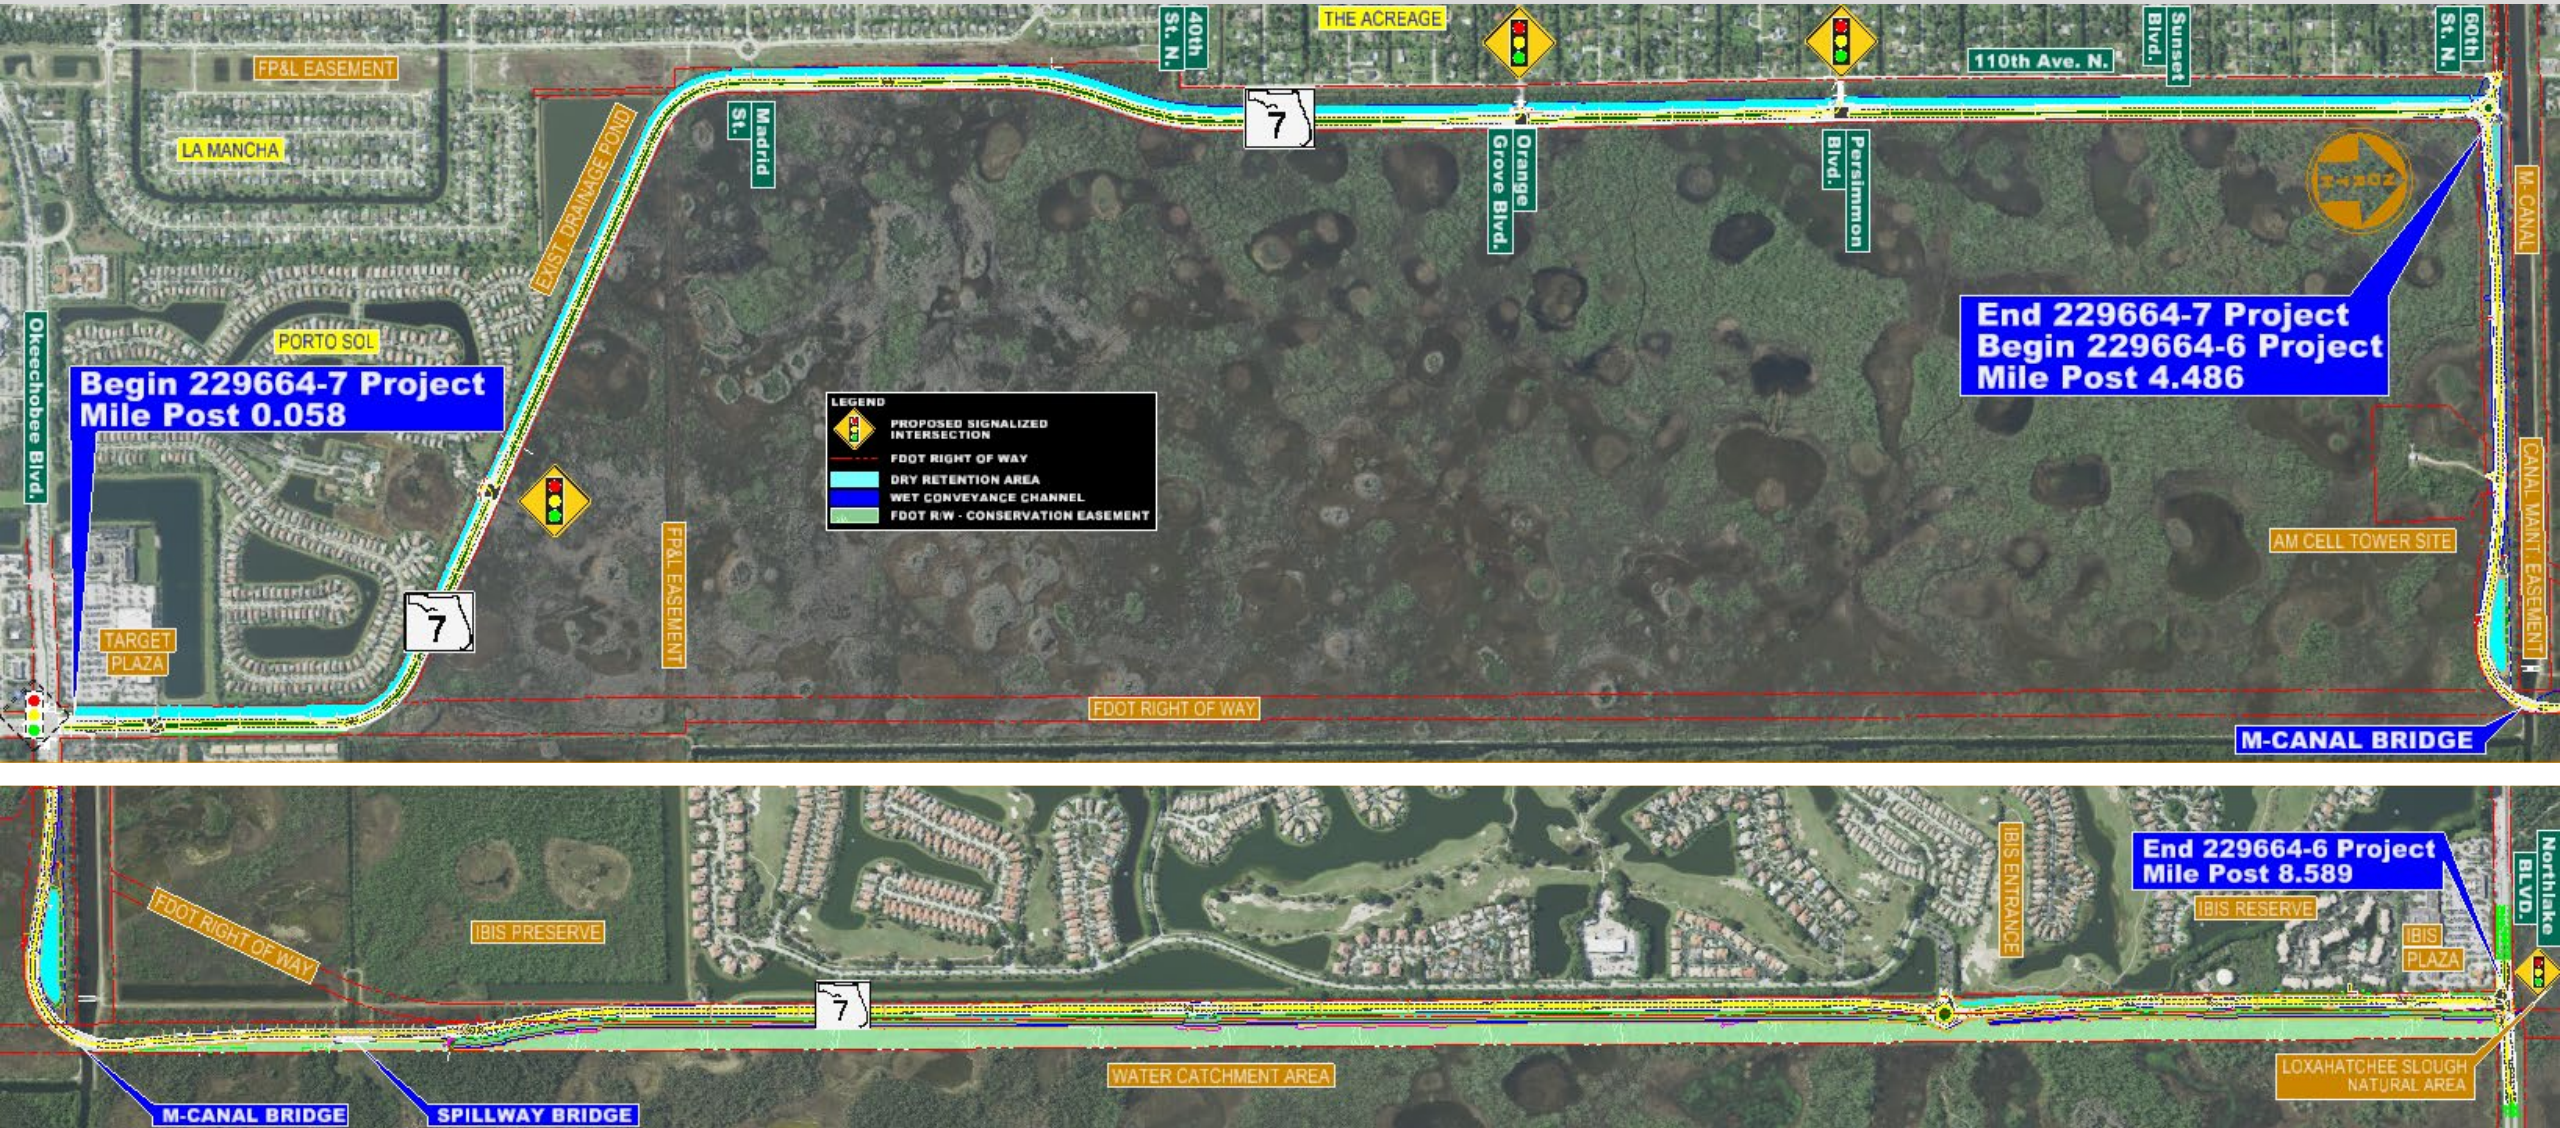

Existing Conditions:

- 2 - Lane roadway from the east service entrance at Ibis Golf and Country Club to Northlake Boulevard
- Existing sidewalk and fence

Proposed Improvements:

- Construct a four-lane divided roadway from 60th Street North to Northlake Boulevard
- New Roundabout at Ibis Golf & Country Club East Service Entrance
- Construct bridges over the M-Canal and the Ibis Preserve spillway.

Overview

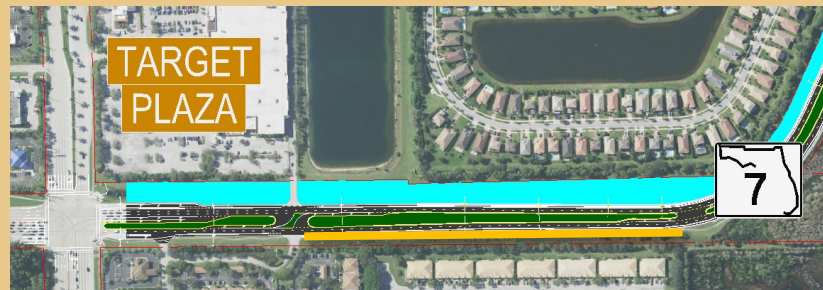

Project Commitments, Proposed Noise Barriers, and Reductions to Environmental Impacts

Project Commitments

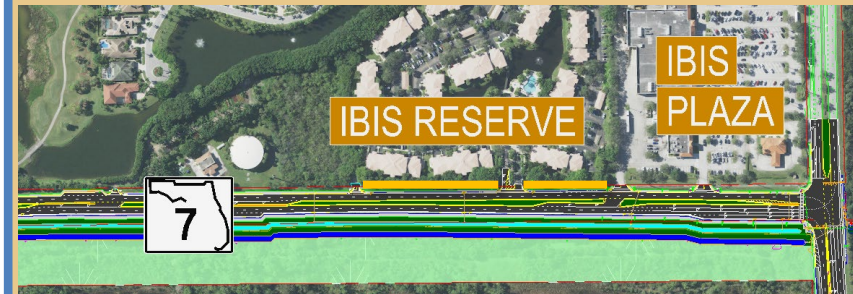

- Implement measures to protect snail kite and its foraging habitat. Conversion of 213+ acres of transportation right of way that is high quality snail kite habitat to preservation area with a perpetual conservation easement.
- Provide roundabout at the east service entrance to the Ibis Golf and Country Club community
- Include wildlife fencing along the east and south sides of the corridor and wildlife crossings
- Implement reasonable and feasible noise abatement measures
- Provide robust wetland mitigation equivalent to 709 acres of wetland restoration to offset 56.75 acres of wetland impact.

Proposed Noise Barriers

- 16' High Noise Barrier at Baywinds
- 20' High Noise Barrier at Ibis Reserve

16' High Noise Barrier at Baywinds

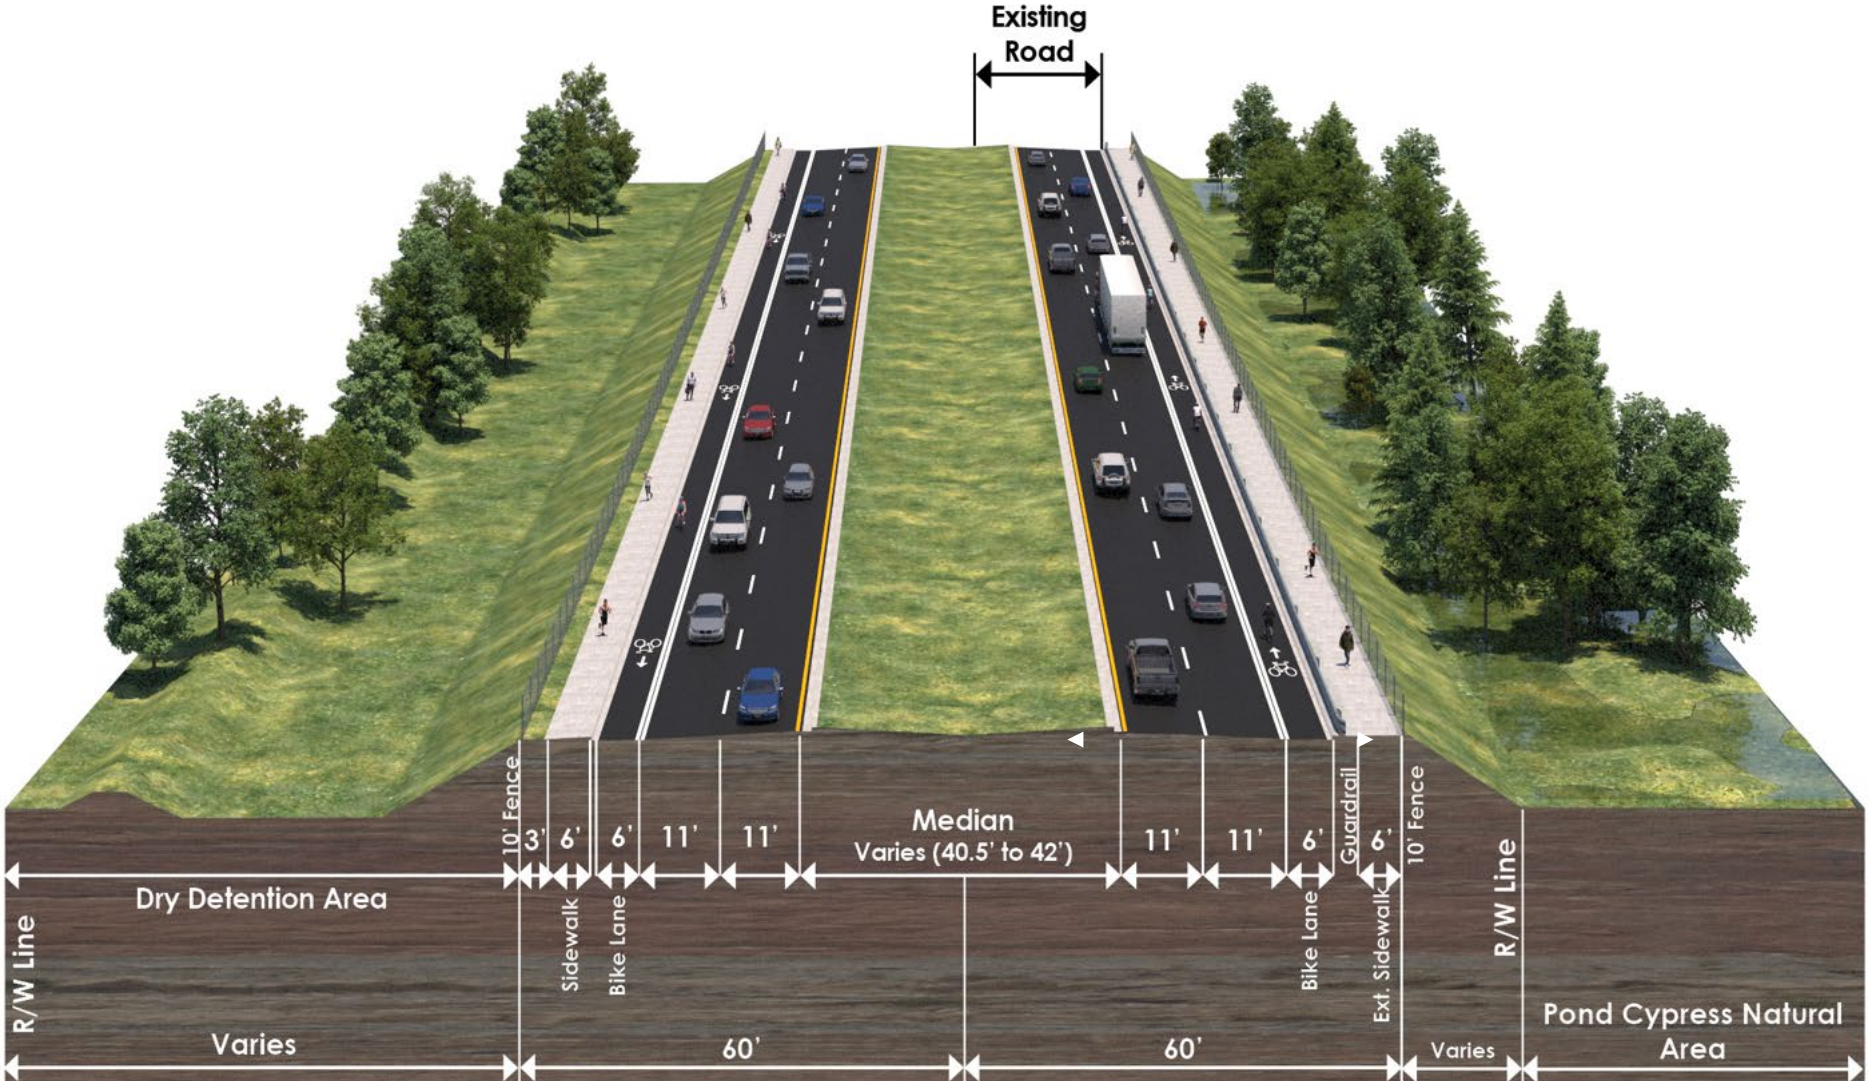

20' High Noise Barrier at Ibis Reserve

Reductions to Environmental Impacts

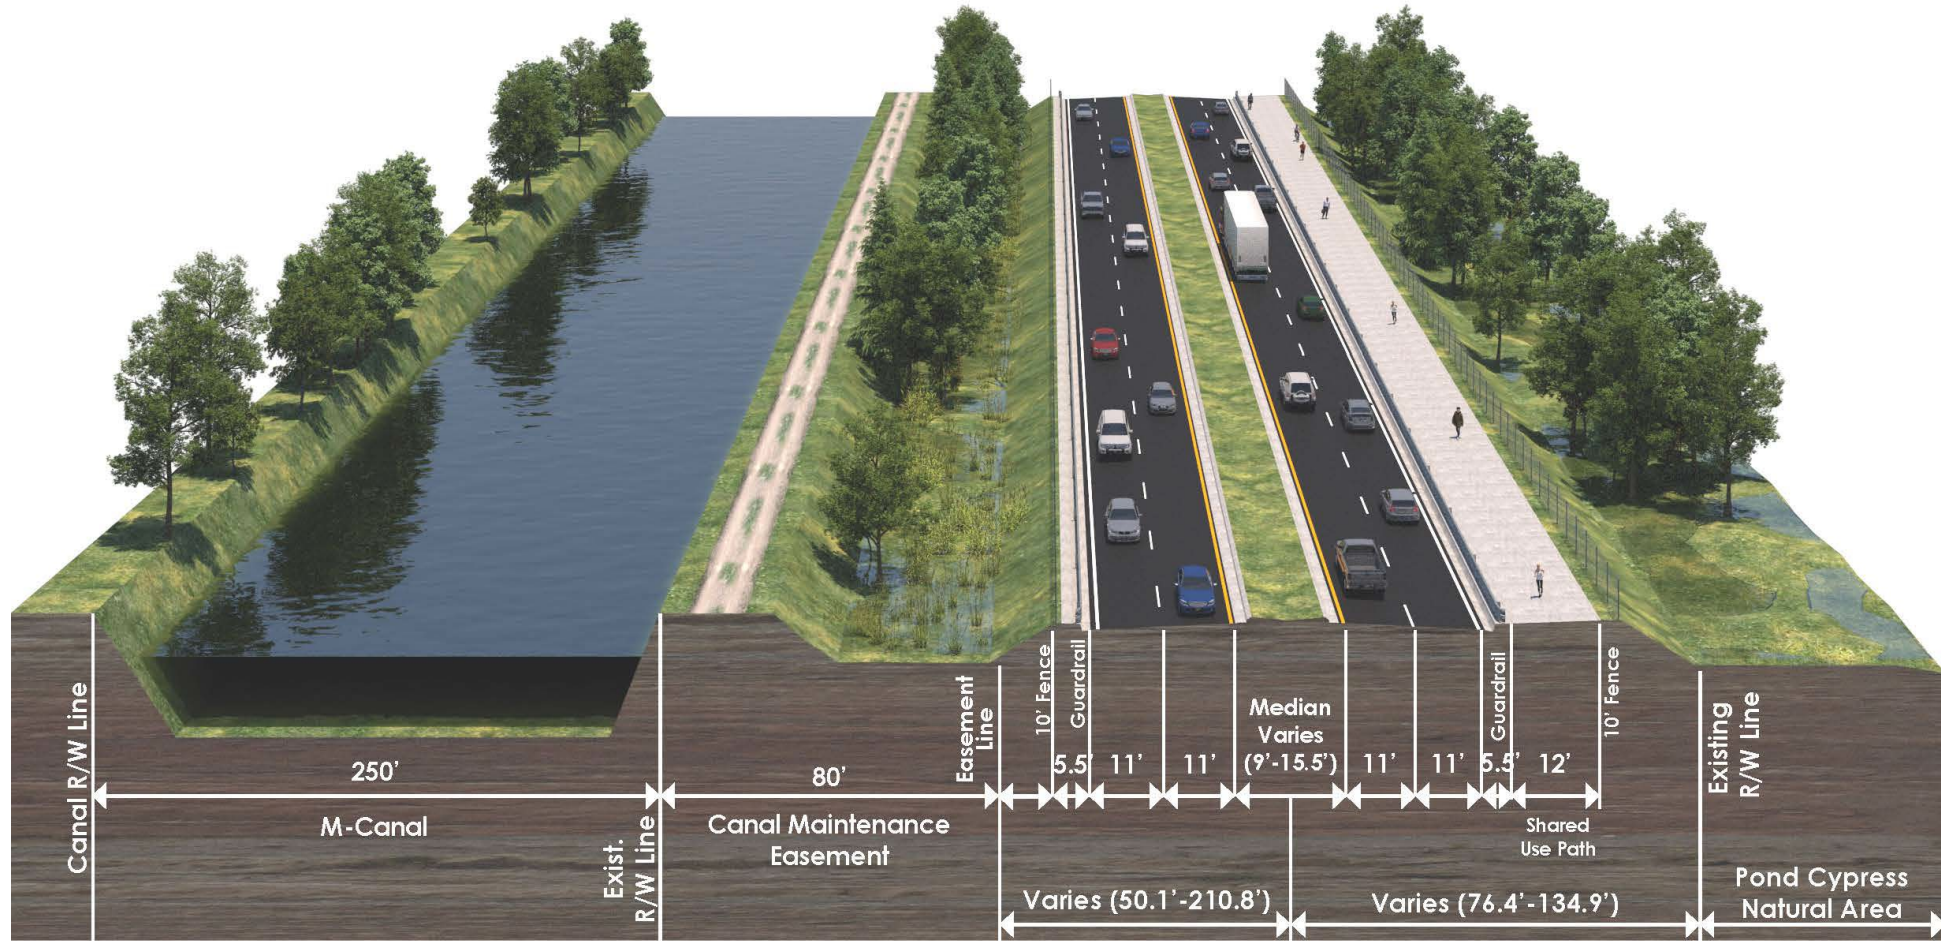

- Reduced median width from 22' to 15.5' east/north of 60th Street North
- Replaced sidewalks and on-street bike lanes with a shared use path east/north of 60th Street North
- Eliminated direct outfalls to Ibis Lakes system and Water Catchment Area (Grassy Waters Preserve)
- Added retaining walls to reduce footprint and further minimize wetland impacts
- Redesigned Ibis spillway bridge to eliminate pilings in water
- Eliminated an open swale south of M-Canal to reduce footprint

Proposed Improvements

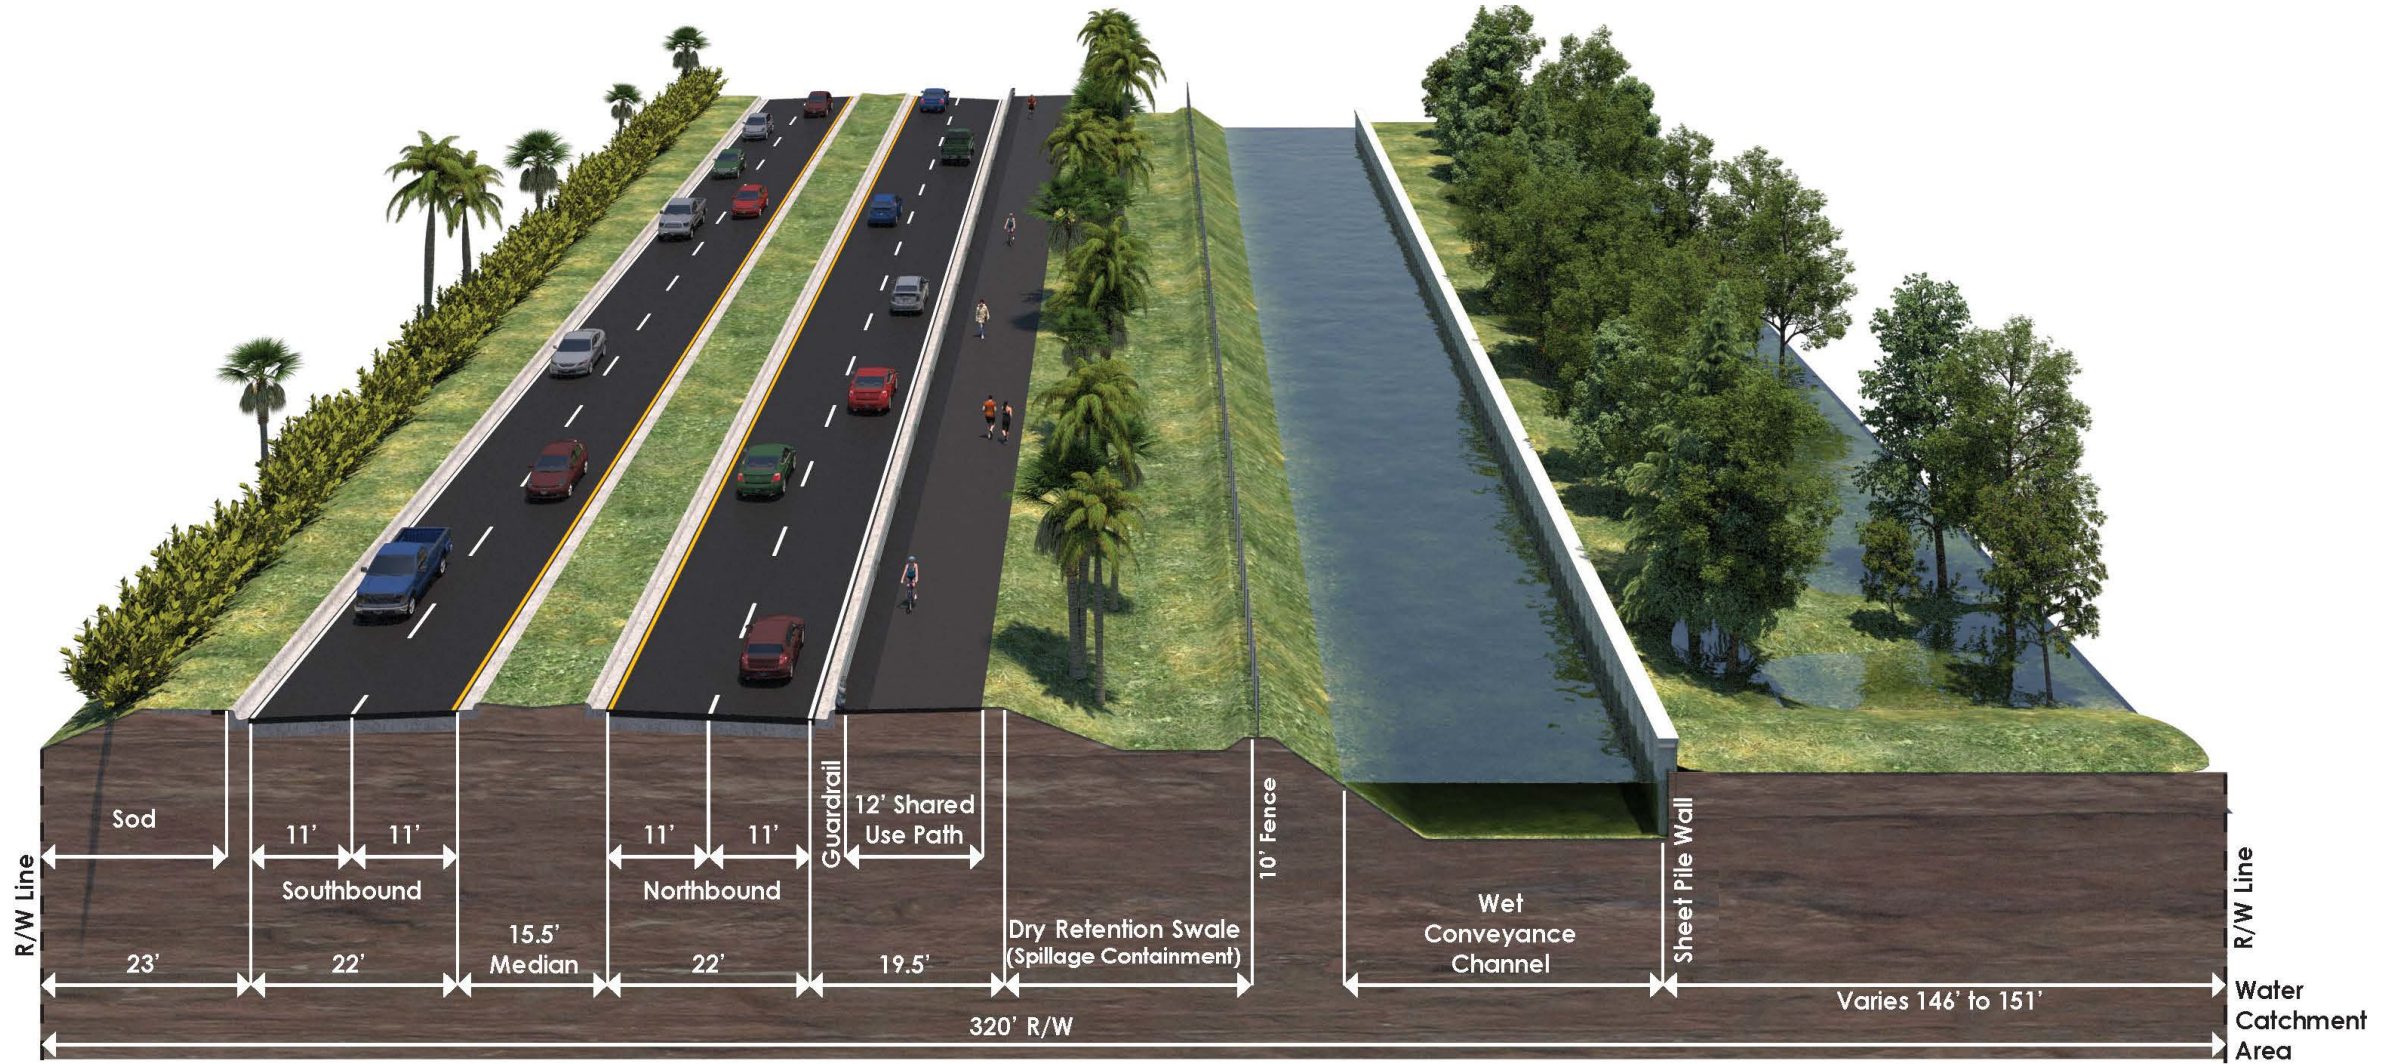

S.R. 7 from Okeechobee Boulevard to 60th Street North

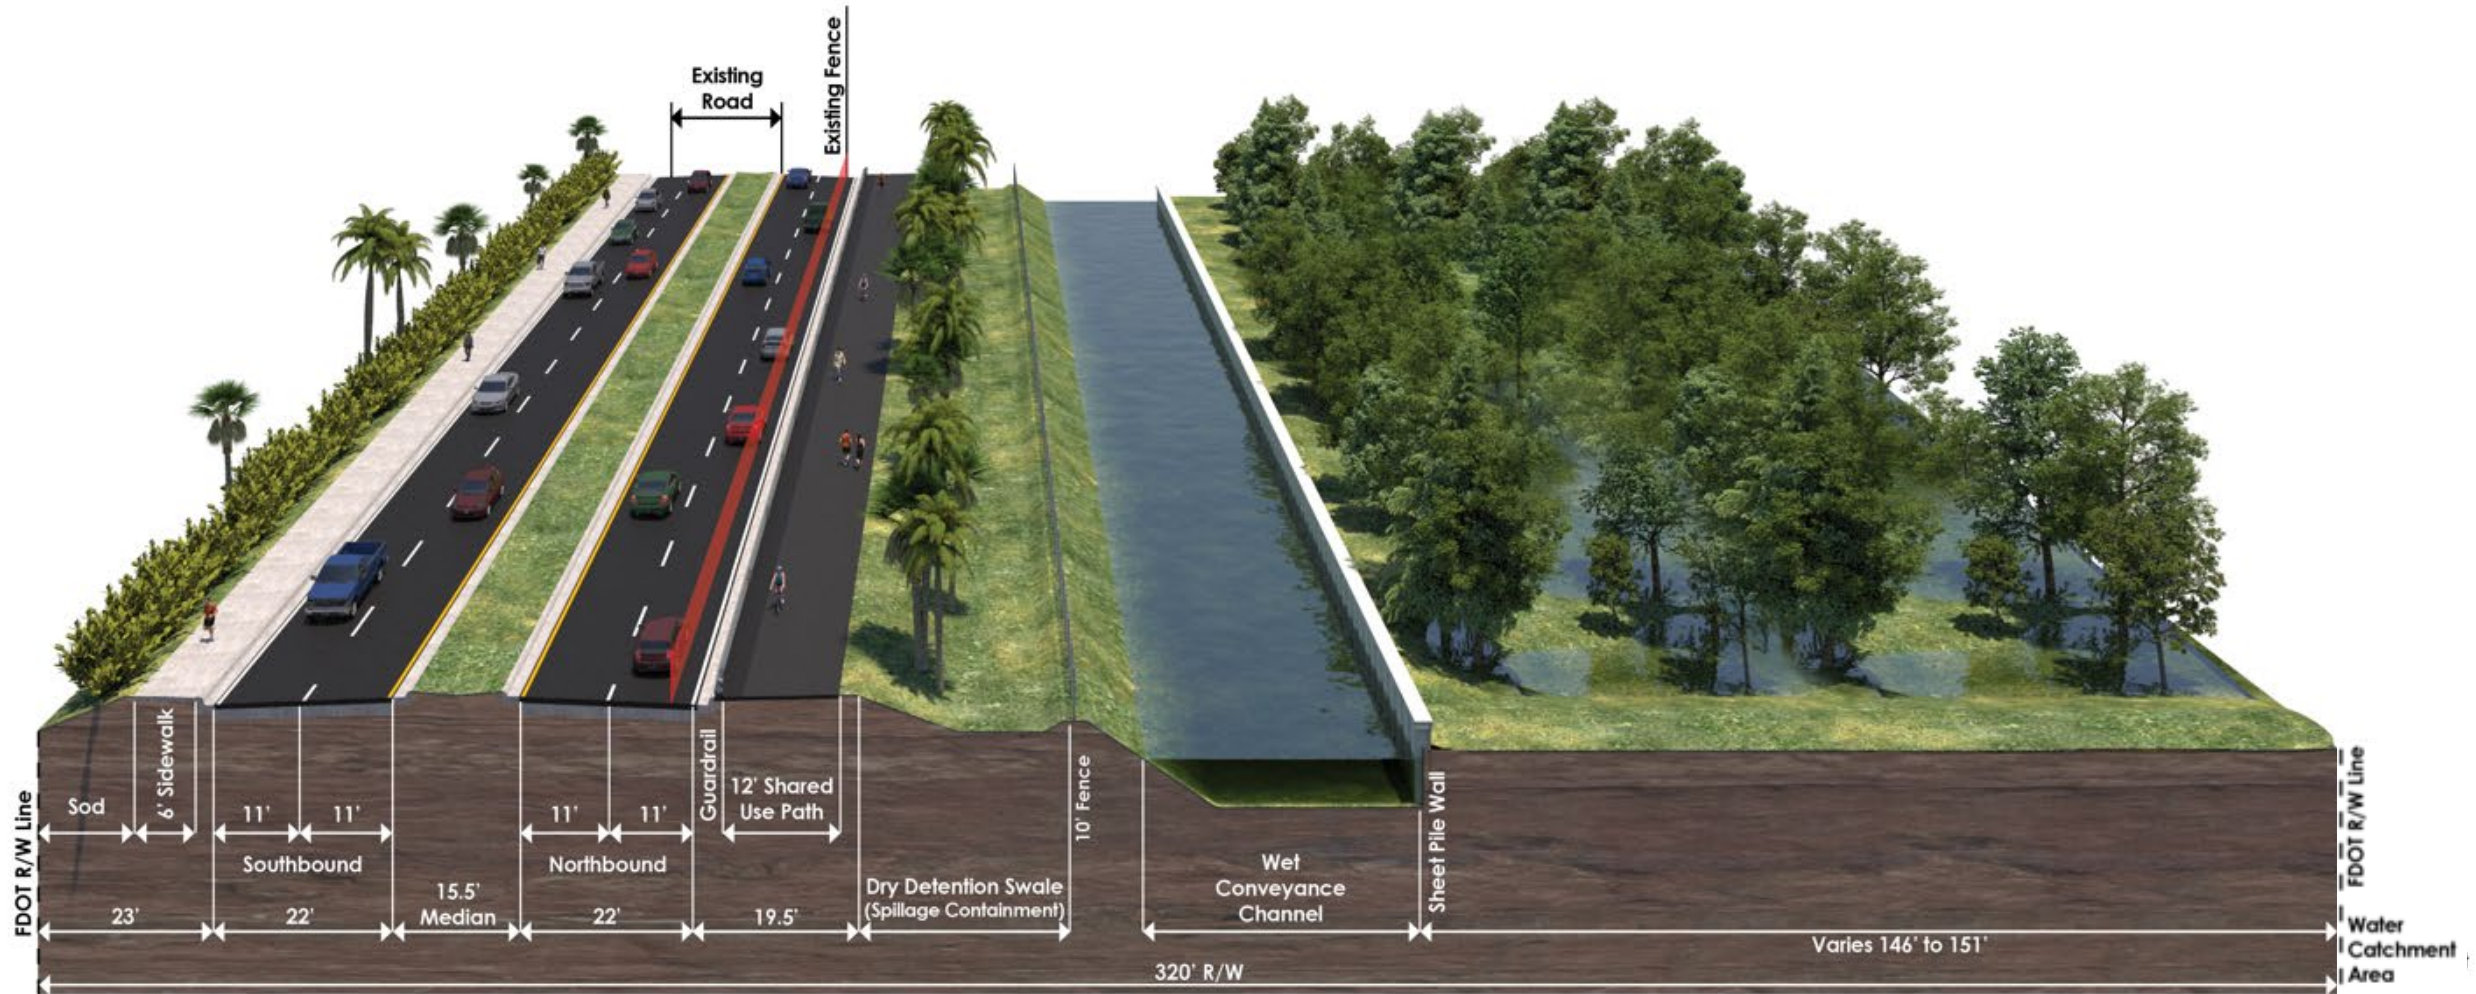

S.R. 7 from 60th Street North to S of M-Canal (New Road)

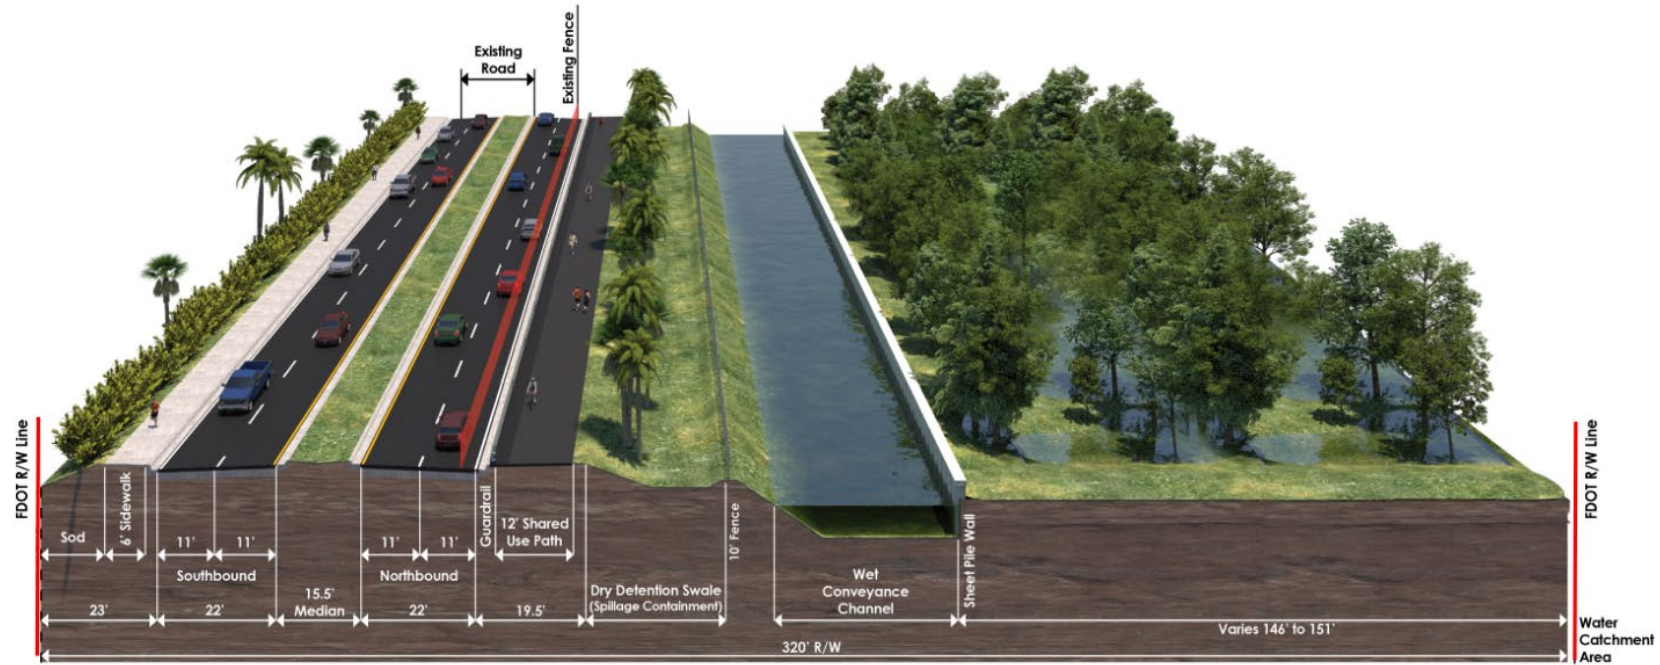

S.R. 7 from M-Canal to Ibis Golf & Country Club Service Entrance (New Road)

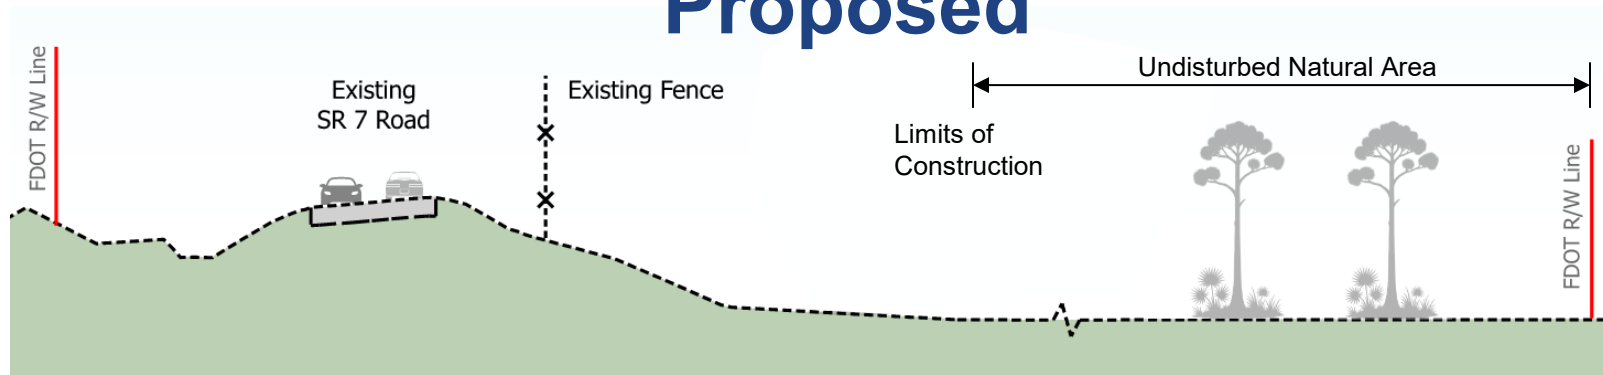

S.R. 7 from Ibis Golf & Country Club Service Entrance to Northlake Boulevard (New Road)

Existing and Proposed S.R. 7 from Ibis Golf & Country Club East Service Entrance to Northlake Boulevard

Dear Elected Official:

RE: Public Meeting Notification

State Road (S.R.) 7 Extension Project
From S.R. 704/Okeechobee Boulevard to Northlake Boulevard
Palm Beach County, Florida
Financial Project Identification Numbers: 229664-6 and 229664-7

On behalf of the Florida Department of Transportation (FDOT), you and your staff are invited to a Public Meeting to learn about the proposed improvements for the above-referenced project. This public meeting will be offered virtually and in-person.

The **virtual Public Meeting** is scheduled for **Tuesday, February 24, 2026, at 5:30 p.m.** The in-person Public Meeting is scheduled for **Thursday, February 26, 2026, at 5:30 p.m.**

To participate in the **virtual Public Meeting** from your computer, tablet, or smartphone, please register using the link: <https://tinyurl.com/sr7extension>. Participants can also use their phone by dialing **+1 (562) 247-8422** and using **Access code: 523-832-987**.

The **in-person Public Meeting** will take place at the **Royal Palm Beach Cultural Center at 151 Civic Center Way, Royal Palm Beach, Florida 33411**.

Staff will be available to answer questions and provide assistance. During the public meeting, comments and questions will be answered in the order received. If your question is not answered during the event, a response will be provided in writing following the meeting. Questions and comments may also be submitted prior to the meeting by contacting the Project Manager. Enclosed is a copy of the Public Meeting Flyer.

Project information is available at: www.sr7extension.com.

Community feedback is at the core of all we do. FDOT works with the public to balance their community vision with the community's transportation needs. This is routine on all our projects to ensure Florida's infrastructure is safe, resilient, and efficient for many years into the future. Notices are being sent to all property owners and tenants located within 300 feet of the project and to other public officials, regulatory agencies, organizations, and individuals that have expressed an interest in the project.

If you require further information, please do not hesitate to contact the FDOT Project Manager, Scott Peterson, P.E., at (954) 777-4416, Toll free at (866) 336-8435, ext. 4416, or via email at Scott.Peterson@dot.state.fl.us.

Sincerely,

Steven C. Braun, P.E.
District 4 Secretary

Enclosure: Public Meeting Flyer

FLORIDA DEPARTMENT OF TRANSPORTATION INVITES YOU TO A PUBLIC MEETING

STATE ROAD (S.R.) 7 EXTENSION PROJECT

From S.R. 704/Okeechobee Boulevard to Northlake Boulevard
Palm Beach County, Florida

Financial Project Identification Numbers: 229664-6 and 229664-7

The Florida Department of Transportation (FDOT) will conduct a public meeting for the above referenced project within Palm Beach County. This public meeting will be offered virtually and in-person. The public meeting will have representatives available to answer questions. Project information will be available for public viewing. Questions and comments may be submitted prior to the meeting by contacting the Project Manager, Scott Peterson, P.E.. The presentations will start at 6:00 p.m. followed by a question-and-answer session. Project information is posted at: www.sr7extension.com.

PURPOSE OF PROJECT: Extend S.R. 7 to provide a safe, efficient, and environmentally sensitive connection between Okeechobee Boulevard and Northlake Boulevard to improve community connectivity for western Palm Beach County.

PROPOSED IMPROVEMENTS

229664-7 (from Okeechobee Boulevard to 60th Street)

- Construct two new travel lanes between Okeechobee Boulevard and 60th Street to provide two lanes in each direction.
- Modify the 60th Street roundabout from a one-lane to a two-lane roundabout.

229664-6 (from 60th Street to Northlake Boulevard)

- Construct a four-lane divided roadway on a new alignment from 60th Street to Northlake Boulevard.
- Construct new 4-lane bridge crossings over the M-Canal and the Ibis Preserve spillway.
- Construct a 12-foot shared-use path from 60th Street to Northlake Boulevard to improve bicycle and pedestrian safety and mobility.
- Construct a robust drainage system to improve the resiliency of our infrastructure.

CONSTRUCTION IMPACTS

- Work will be done in phases to reduce the effects of construction on the community.
- Short-term, temporary detours are anticipated for construction of connections to Orange Grove Boulevard and Persimmon Boulevard. Both will be limited to one weekend each, and will not occur at the same time.
- Access to businesses and residences will be maintained during construction.
- Another public meeting (Construction Open House) will be held prior to construction. Detailed information about how to keep informed of potential construction impacts will be provided at that meeting.

CONSTRUCTION INFORMATION

229664-6

- Anticipated Construction Start: **Fall 2028**
- Anticipated Construction End: **Fall 2031**
- Estimated Construction Cost: **\$94.2 Million**

229664-7

- Anticipated Construction Start: **Spring 2028**
- Anticipated Construction End: **Spring 2031**
- Estimated Construction Cost: **\$43.4 Million**

FLORIDA DEPARTMENT OF TRANSPORTATION MISSION STATEMENT

The Florida Department of Transportation's mission is to provide a safe statewide transportation system that promotes the efficient movement of people and goods, supports the state's economic competitiveness, prioritizes Florida's environment and natural resources, and preserves the quality of life and connectedness of the state's communities.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons who require special accommodations under the Americans with Disabilities Act (ADA) or persons who require translation services (free of charge) should contact Scott Peterson, P.E., Project Manager, at least seven (7) days prior to the Public Meeting.

ROAD DESIGN IN PROGRESS

ANNUAL GREAT CHARITY CHALLENGE AWARDS \$2.3 MILLION TO NONPROFITS

The Great Charity Challenge, sponsored by Fidelity Investments, returned to Wellington International on Saturday, Jan. 31. This is the 17th year that the event has taken place, raising \$2.3 million for local organizations. Thirty-six teams of three riders each competed on the obstacle course hoping for the best time to raise money for the organization they were riding for. The team of Isabelle Ehman, Elizabeth Rinehart and Luke Rinehart, riding for the Make-A-Wish Foundation of Southern Florida, took the top prize. A costume relay race kicked off the event this year, also raising money for several charitable organizations. Learn more about the Great Charity Challenge at www.greatcharitychallenge.com.

Public Meeting

State Road (S.R.) 7 Extension Project
From S.R. 704/Okeechobee Boulevard to Northlake Boulevard
Palm Beach County, Florida
Financial Project Identification Numbers: 229664-6 and 229664-7

The Florida Department of Transportation (FDOT) will conduct a public meeting for the above referenced project within Palm Beach County. This public meeting will be offered virtually and in-person. The Public Meeting will consist of a formal presentation with representatives available to answer questions and provide assistance. Project information will be available for public viewing. Questions and comments may be submitted prior to the meeting by contacting the Project Manager, Scott Peterson, P.E. Project information is posted at: www.sr7extension.com.

Virtual Public Meeting - Tuesday, February 24, 2026, at 5:30 p.m.
To participate in the virtual public meeting from your computer, tablet, or smartphone please register at <https://tinyurl.com/sr7extension> or scan the QR code below. Participants can also dial in using their phone: Dial in number: +1 (562) 247-8422 Access code: 523-832-987.

In-person Public Meeting - Thursday, February 26, 2026 from 5:30 p.m. to 7:00 p.m.
Royal Palm Beach Cultural Center, 151 Civic Center Way, Royal Palm Beach, Florida 33411. If you are unable to attend the meeting, a recording of it will be posted at: www.sr7extension.com.

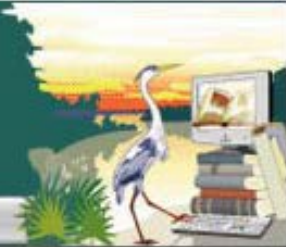

For additional information about the project, visit our website at www.sr7extension.com

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons who require special accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should contact Scott Peterson, P.E., FDOT District Four Project Manager, at (954) 777-4416 or email scott.peterson@dot.state.fl.us at least seven days prior to the meeting.

Notice of Public Meeting

OTHER AGENCIES AND ORGANIZATIONS

Quest Corporation of America, Inc.

The Florida Department of Transportation announces a Public Meeting to which all persons are invited.

DATE AND TIME: Virtual Public Meeting on Tuesday, February 24, 2026, at 5:30 p.m. and in-person Public Meeting on Thursday, February 26, 2026, from 5:30 p.m. to 7:00 p.m.

PUBLIC MEETING LOCATION: Virtually on GoToWebinar: <https://tinyurl.com/sr7extension>.

Participants can also use their phone by dialing **+1 (562) 247-8422** and using **Access code: 523-832-987**, and in-person at the Royal Palm Beach Cultural Center at 151 Civic Center Way, Royal Palm Beach, Florida 33411.

GENERAL SUBJECT MATTER TO BE CONSIDERED: The Florida Department of Transportation (FDOT) will hold a Public Meeting regarding the State Road (S.R.) 704/Okeechobee Boulevard to Northlake Boulevard Design Project FPID Numbers: 229664-6-52-01 and 229664-7-52-01.

The meeting will be held virtually and in-person. The Public Meeting will consist of a formal presentation with representatives available to answer questions and provide assistance. If your question is not answered during the event, a response will be provided in writing following the meeting. Questions and comments may also be submitted prior to the meeting by e-mailing the project manager.

Community feedback is at the core of what we do. FDOT works with the public to balance their community vision with the community's transportation needs. This is routine on all our projects to ensure Florida's infrastructure is safe, resilient, and efficient for many years into the future.

A copy of the agenda may be obtained by contacting: FDOT Project Manager Scott Peterson, P.E., at 954-777-4416 or via email at Scott.Peterson@dot.state.fl.us.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this public information meeting is asked to advise the agency at least 7 days before the meeting by contacting: FDOT Project Manager, Scott Peterson, P.E., at (954) 777-4416, Toll free at (866) 336-8435, ext. 4416, or in writing at FDOT, 3400 West Commercial Boulevard, Fort Lauderdale, Florida 33309 or by email at: Scott.Peterson@dot.state.fl.us.

If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1 (800) 955-8771 (TDD) or 1 (800) 955-8770 (Voice).

For more information, you may contact: FDOT Project Manager, Scott Peterson, P.E., at (954) 777-4416, Toll free at (866) 336-8435, ext. 4416, or via email at Scott.Peterson@dot.state.fl.us.

Frustrations and hope on display at public meeting for long-delayed SR 7 project

by [Jamilka Gibson](#)

TOPICS: [SR 7](#) [PALM BEACH COUNTY](#) [ROAD EXTENSION](#) [TRAFFIC CONGESTION](#) [ENVIRONMENTAL CONCERNS](#) [LEGAL](#)

ROYAL PALM BEACH, Fla. (CBS12) — After years of legal battles, delays, and environmental concerns, the **State Road 7 extension** is once again gaining momentum — and residents in western Palm Beach County say the progress is long overdue.

Dozens packed into the Royal Palm Beach Cultural Center Thursday night to hear updated timelines and design changes for the project, which would finally create a direct north-south connection between Okeechobee Boulevard and Northlake Boulevard.

ADVERTISEMENT

Residents say the need is urgent

Acreage resident Jody Hayes says traffic is already difficult on a normal day, but her biggest concern is hurricane season.

"Day to day traffic getting in and out of The Acreage where I live — it can be a very dicey thing," Hayes said. "But my biggest concern has been hurricane season for the evacuation."

Public meeting highlights mixed reactions to long-delayed SR 7 project

Others, like Jane Wolff, say dependence on Northlake Boulevard has become unbearable.

"Traffic is getting worse and worse. It's hard to even get out of your neighborhood," Wolff said. "If there's an accident, you just sit there. You could sit for an hour and a half on Northlake Boulevard."

Wolff says years of litigation and environmental disputes have only made the situation more costly and more frustrating.

"It's getting more expensive all the time for taxpayers. They just need to do it," Wolff continued.

“When your response time is going up, that means you’re endangering people, endangering lives there’s been a couple incidences where they couldn’t get to people in time and they died.”

Updated designs aim to ease environmental concerns

FDOT project manager Scott Peterson presented new design refinements, including:

Reducing the project’s footprint near Grassy Waters Preserve

Removing plans that would have sent drainage into the Ibis Lake area

Widening sections from two lanes to four lanes on both the north and south ends

“We want to do projects in a way that satisfies the public If people have concerns, I want to hear about them too.”

These updates align with FDOT’s plan to improve traffic flow while minimizing environmental impacts — a key factor in previous legal challenges.

Construction still years away

FDOT tells CBS12 News the agency hopes to begin construction in spring 2028, with work taking place in phases to limit disruptions to nearby neighborhoods.

Residents say they’re ready and hoping this time, the project finally sticks.

State Road 7 extension gets updates as FDOT pushes forward despite ongoing legal challenges

FDOT plans to begin the \$137 million project in 2028, finishing by 2031, after a judge ruled against West Palm Beach's lawsuit over environmental concerns.

Photo by: WPTV

Locals discuss the State Road 7 extension project at a public FDOT meeting Feb. 27, 2026.

By: Michael Hoffman , Scott Sutton

Posted 5:31 AM, Feb 27, 2026 and last updated 5:46 PM, Feb 27, 2026

ROYAL PALM BEACH, Fla. — Plans to extend State Road 7 have been in the works for decades, and on Thursday night, the Florida Department of Transportation (FDOT) held its second public meeting to update residents on where the project stands and what has changed.

FDOT and Palm Beach County are looking to connect Okeechobee Boulevard to Northlake Boulevard by way of the roundabout on 60th Street on State Road 7. The goal is to reduce traffic, improve emergency response times and establish a hurricane evacuation route.

WATCH BELOW: FDOT pushes forward on State Road 7 extension

ADVERTISEMENT

The City of West Palm Beach sued FDOT and the county, citing environmental concerns. A judge ruled against the city, but West Palm Beach has appealed. Despite the ongoing legal challenge, FDOT plans to move forward with the project in two phases.

2028 from Okeechobee Boulevard north to 60th Street. This phase would cost an estimated \$43.4 million with a completion date of Spring 2031.

First Phase would include the following:

- Adding two new travel lanes between Okeechobee Boulevard and 60th Street to provide two lanes in each direction
- Reconstructing the 60th Street roundabout from one lane to two lanes

The second phase is scheduled to start in Fall 2028 from 60th Street to Northlake Boulevard. This phase would cost an estimated \$94.2 million with a completion date of Fall 2031.

Second Phase would include the following:

- Constructing a four-lane divided roadway on a new alignment from 60th Street to Northlake Boulevard
- Constructing crossings over the M-Canal and the Ibis Preserve spillway
- Constructing a 12-foot shared-use path from 60th Street to Northlake Boulevard to improve bicycle and pedestrian safety and mobility
- Constructing a "robust" drainage system to improve resiliency

Christopher Karch has lived in the Acreage for 40 years and said the growing traffic problem has been a long-running frustration.

"It's a terrible thing to have to deal with," Karch said.

That frustration brought him to Thursday's public meeting, where he and other residents got answers about where the project stands and what is new. For Karch, the updates were encouraging.

"Just something very good for the communities," Karch said.

WPTV reporter Michael Hoffman spent the evening speaking with residents and project staff about the latest updates to the project. Project Manager Scott Peterson said the team has worked to address concerns that have been raised over the years.

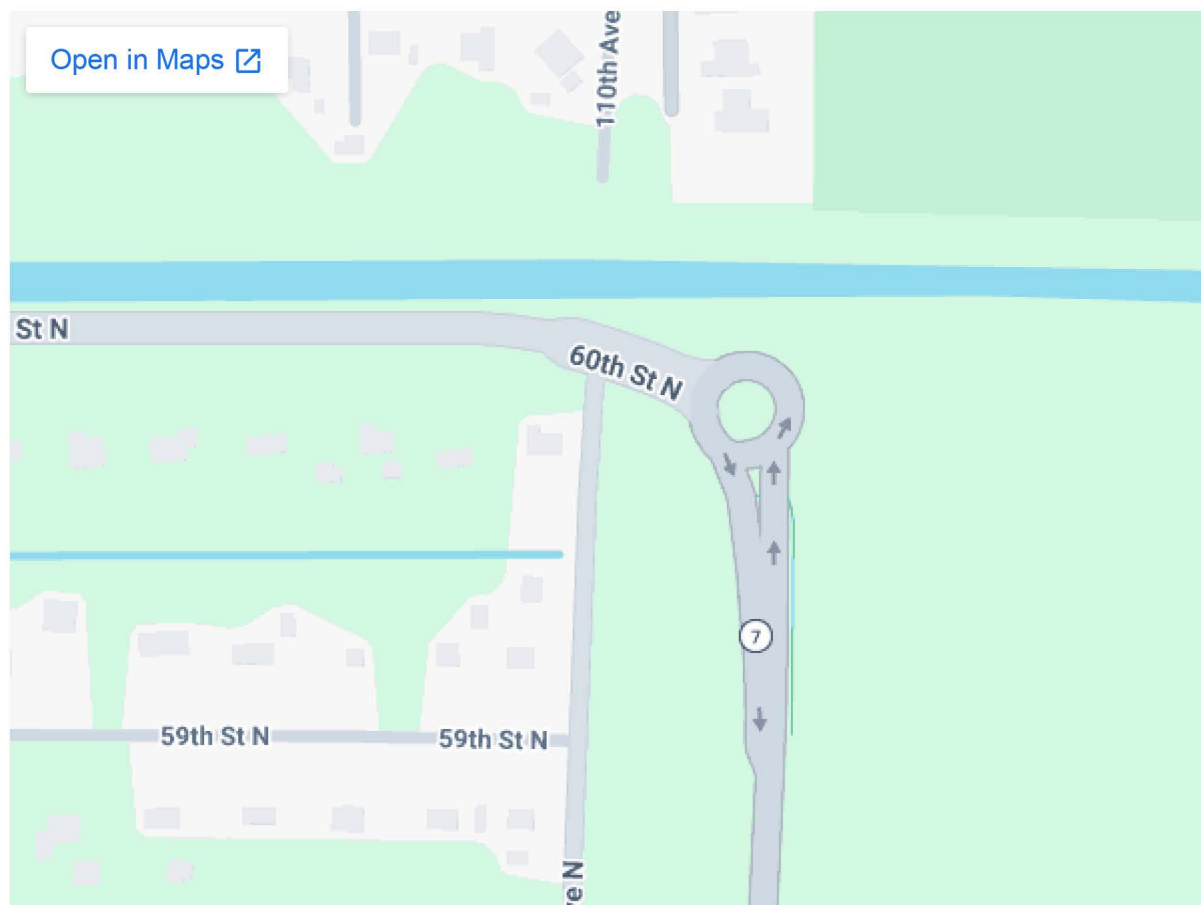

"Over the past several years, we've taken a step back, and we've tried to address some of the concerns that have come up, and some of the specific changes are, we've shrunk the footprint of the project," Peterson said.

The team is addressing environmental concerns by redesigning the project's drainage system and tackling noise concerns through the use of sound walls.

Peterson said those changes, along with a shift in public opinion, give him confidence the project will be completed.

For residents like Karch, the hope is that the updates are enough to finally get the project across the finish line.

"Hopefully everybody's happy now, and we can get the project rolling," Karch said.

FLORIDA DEPARTMENT OF TRANSPORTATION

STATE ROAD (S.R.) 7 EXTENSION PROJECT

From S.R. 704/Okeechobee Boulevard to Northlake Boulevard

Palm Beach County, Florida

Financial Project Identification Numbers: 229664-6 and 229664-7

The Florida Department of Transportation's (FDOT) SR 7 Extension Project will provide a safe, efficient, and environmentally sensitive connection between Okeechobee Boulevard and Northlake Boulevard to improve community connectivity for western Palm Beach County. This project is vital to satisfying capacity and mobility needs due to increasing growth and travel demands in the region. The improvements will also help with emergency response and evacuation by improving network connectivity in the area.

PURPOSE OF PROJECT: Extend S.R. 7 to provide a safe, efficient, and environmentally sensitive connection between Okeechobee Boulevard and Northlake Boulevard to improve community connectivity for western Palm Beach County.

PROPOSED IMPROVEMENTS

229664-7 (from Okeechobee Boulevard to 60th Street North)

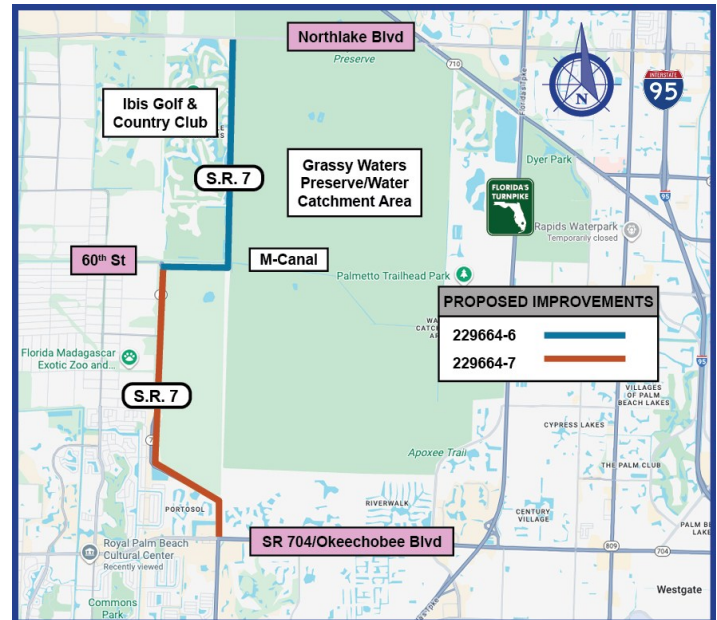

- Construct two new travel lanes between Okeechobee Boulevard and 60th Street North to provide two lanes in each direction.
- Modify the 60th Street North roundabout from a one-lane to a two-lane roundabout.

229664-6 (from 60th Street North to Northlake Boulevard)

- Construct a four-lane divided roadway on a new alignment from 60th Street North to Northlake Boulevard.
- Construct new 4-lane bridge crossings over the M-Canal and the Ibis Preserve spillway.
- Construct a 12-foot shared-use path from 60th Street North to Northlake Boulevard to improve bicycle and pedestrian safety and mobility.
- Construct a robust drainage system to improve the resiliency of our infrastructure.

CONSTRUCTION IMPACTS

- Work will be done in phases to reduce the effects of construction on the community.
- Short-term, temporary detours are anticipated for construction of connections to Orange Grove Boulevard and Persimmon Boulevard. Both will be limited to one weekend each, and will not occur at the same time.
- Access to businesses and residences will be maintained during construction.
- Another public meeting (Construction Open House) will be held prior to construction. Detailed information about how to keep informed of potential construction impacts will be provided at that meeting.

CONSTRUCTION INFORMATION

229664-6

- Anticipated Construction Start: **Fall 2028**
 - Anticipated Construction End: **Fall 2031**
 - Estimated Construction Cost: **\$94.2 Million**
- ##### 229664-7

- Anticipated Construction Start: **Spring 2028**
- Anticipated Construction End: **Spring 2031**
- Estimated Construction Cost: **\$43.4 Million**

FLORIDA DEPARTMENT OF TRANSPORTATION MISSION STATEMENT

The Florida Department of Transportation's mission is to provide a safe statewide transportation system that promotes the efficient movement of people and goods, supports the state's economic competitiveness, prioritizes Florida's environment and natural resources, and preserves the quality of life and connectedness of the state's communities.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or family status. Persons who require special accommodations under the Americans with Disabilities Act (ADA) or persons who require translation services (free of charge) should contact Scott Peterson, P.E., Project Manager, at least seven (7) days prior to the Public Meeting.

State Road (S.R.) 7 Extension Project Need and Benefits

Financial Project ID's: 229664-6 & 229664-7

AREA DEVELOPMENT

PROJECT KEY POINTS

IMPROVE REGIONAL TRAVEL CONNECTIVITY

- There are limited north-south corridors in the western Palm Beach County network.
- S.R. 7 is one of four roads that connect between Miami-Dade, Broward, and Palm Beach Counties.

ACCOMMODATE THE TRAVEL DEMAND

- The need for additional linkage between Okeechobee Blvd and Northlake Blvd will continue to grow as travel demands grow.

SATISFY CAPACITY, MOBILITY, AND CONNECTIVITY NEEDS

- In addition to travel demand, the route will facilitate hurricane evacuation and emergency response times.
- The S.R. 7 Extension project adds four lanes of north-south roadway traffic capacity between 60th Street North and Northlake Blvd. and two lanes of north-south roadway traffic capacity between Okeechobee Blvd and 60th Street North.
 - This extension will help alleviate traffic volume on adjacent north-south parallel roads including Seminole Pratt Whitney Road, Royal Palm Beach Blvd., Coconut Blvd., and the Florida Turnpike.

DISTANCE AND TRAVEL TIME BENEFITS

- The S.R. 7 extension provides a shorter route and shorter drive times than other parallel routes.
- Travel demand shows a need for another north-south route in Palm Beach County.
 - Data shows an increase in population by 50% from 2015-2045 and a job growth increase of 73%.
 - Three new developments in western Palm Beach County including Avenir, Minto West, and Indian Trails Grove relied on the S.R. 7 extension to accommodate their trips.

INCREASE SAFETY

- Reduce cut-through traffic in the residential streets of the Acreage, most notably Royal Palm Beach Blvd and Coconut Blvd.
- The S.R. 7 Extension route reduces the total overall predicted number of crashes on the adjacent north-south roads in the study area.

SR 7 EXTENSION PROJECT FACTS

CONGESTION

The SR 7 extension is a vital addition to the network to alleviate the congestion which will continue to worsen due to existing and planned developments.

- a. There are limited north-south connections in the area
- b. The existing road network is not adequate
- c. The project will reduce cut through traffic in the residential streets of the acreage

ENVIRONMENT

The proposed road will not contaminate the city's water supply. The project design contains multiple layers of protection against pollution of the adjacent natural areas.

EMERGENCY

The proposed road will reduce emergency response times and facilitate hurricane evacuation.

COMMUNITY

The Department takes community feedback seriously. Based upon the concerns raised, the project has been changed significantly to reduce the footprint and the environmental impacts.

I AM THE Mayor of Village of Royal Palm Beach. I fully support the extension of SR 7 from Okeechobee Blvd to Northlake Blvd. I understand the environmental concerns residents have raised. I believe that FDOT has included multiple layers of protection to prevent pollution to adjacent natural areas and protect water supply. This project has important safety and emergency management benefits - including response times and hurricane evacuation. ~~Exactly~~. A real world experience happened a couple of months ago, when Northlake Blvd. was closed due to construction of a railroad crossing. For more than 10 days, residents were forced to use detours → ^{OVER}

Subject: SR 7 Extension Public Meeting Comment

Dear Mayor Hmara:

Thank you for attending the Public Meeting for the State Road (S.R.) 7 Extension Project from State Road (S.R.) 704/Okeechobee Boulevard to Northlake Boulevard. We appreciate the written comment that you submitted regarding the project. Your comment will be included as part of the public records for this project.

Comment:

I am the Mayor of Village of Royal Palm Beach. I fully support the extension of SR 7 from Okeechobee Blvd. to Northlake Blvd. I understand the environmental concerns residents have raised. I believe that FDOT has included multiple layers of protection to prevent pollution in adjacent natural areas and protect the water supply. This project has important safety and emergency management benefits including response times and hurricane evacuation flexibility. A real-world experience happened a couple of months ago when Northlake Blvd. was closed due to construction of a railroad crossing. For more than 10 days, residents were forced to use detours of about 30 miles. The residents and businesses experienced frustration, delays and isolation. That made one thing crystal clear: when a major corridor is compromised, we need redundant routes that keep communities connected. SR 7 extension will likely be one of several critical connections to be part of the ongoing Countywide Transportation Plan here in Palm Beach County. SR 7 Extension must be completed ASAP.

FDOT Response:

We appreciate your support and your insights regarding the importance of SR 7 as a redundant route for emergency management and community connectivity as well as the environmental protections and safety features.

- ① We would like to see an environmental feature / parkway / walkways on the EWI section along ML Canal accessing the north boundary of the preserve that we own and currently have no access, this should be a county park.
- ② Conditions need to be accommodated for security gates / houses @ Orange Blvd & Persimmon Blvd connectors, currently no stacking distance is provided
- ③ Lighting needs to be sensitive to wild life
- ④ Why have we been blocked from 240' of ROW at north end of project for over 20 yrs!?

Subject: SR 7 Extension Public Meeting Comment

Dear Mr. Karch:

Thank you for attending the Public Meeting for the State Road (S.R.) 7 Extension Project from State Road (S.R.) 704/Okeechobee Boulevard to Northlake Boulevard. We appreciate the written comment that you submitted regarding the project. Your comment will be included as part of the public records for this project.

Comment:

1. We would like to see an environmental feature parking/ walkway on the EW section along M-Canal accessing the north of the preserve that we own and currently have no access. This should be a county park.
2. Conditions need to be accommodated for security gates/houses at Orange Blvd & Persimmon Blvd connections, currently no stacking distance is provided.
3. Lighting needs to be sensitive to wildlife.
4. Why have we been blocked from 240' of ROW at north end of project for over 20 years!?

FDOT Response:

1. The east-west portion of SR 7 adjacent to the M-Canal has a 10 ft. shared use path designated for pedestrian and bicycle use. We encourage you to reach out to Palm Beach County for the need of a County park.
2. The SR 7 project limits along Orange Grove Blvd and Persimmon Blvd end east of 110th Ave and do not extend beyond this. This project does not impact any gates or homes and is within the right of way.
3. Proposed lighting fixtures are wildlife sensitive.
4. The fence in this area is present to prevent unwanted trespass into unimproved areas of the right of way for the safety of the public and the environment.

I have been a resident of RPB for 40+ years. I am VERY concerned about the impact of traffic on my community!! It is very UNSAFE!! Our lives are in danger! More traffic - more accident - more injuries + fatalities!! PBCTFR has been having response times increase which means less rescue care and less positive outcomes!! Over (20) years the culprits WPA has been fighting this road. HOW CAN THERE BE INCREASED RESIDENTS all these years!!

**RE: SR 7 Extension Public Meeting Comment
Add Lanes and Reconstruction Project
Okeechobee Boulevard to Northlake Boulevard
Palm Beach County, Florida
Financial Project ID: 229664-6-52-01 & 229664-7-52-01**

Thank you for attending the Public Meeting for the State Road (S.R.) 7 Extension Project from State Road (S.R.) 704/Okeechobee Boulevard to Northlake Boulevard. We appreciate the written comment that you submitted regarding the project. Your comment will be included as part of the public records for this project.

Comment:

1. Environment needs to be focal point.
2. Habitat fragmentation affecting protected species needs to be addressed during & post construction.
3. Make sure you consider increased runoff pollution & your long-term water quality

Basically Scott, make sure you take the environment into consideration & ask yourself when is enough, enough.

FDOT Response:

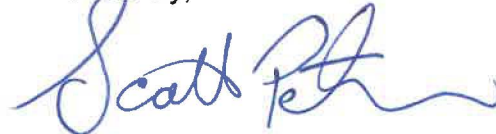

Thank you for your comments. Environmental protection is a top priority. A few key measures included in the design of the project are: reduction of road footprint to minimize environmental impacts and adding several protection measures in place, including specialized wildlife fencing and animal crossings under the proposed bridges. Ongoing monitoring for species has continued through the years and will continue throughout construction. We are providing two conservation easements for this project. Our drainage system is designed to catch and treat road runoff within the right-of-way. These, and other measures ensure the project provides a needed traffic connection while keeping our local wildlife and water safe. South Florida Water Management District has studied our plans and permit application carefully and has issued a permit

indicating they concur that the proposed design adequately accommodates the drainage and protects the environment

Community feedback is at the core of all we do. FDOT works with the public to balance their community vision with the community's transportation needs. For updates on the project, please visit the project website at SR7Extension.com. All public comments received during the open comment period will be displayed in a final summary and posted on the project website.

Should you have any questions about the project, please contact me by mail at 3400 West Commercial Boulevard Fort Lauderdale, Florida 33309, by phone at 954-777-4416 or by email Scott.Peterson@dot.state.fl.us.

Sincerely,

A handwritten signature in blue ink that reads "Scott Peterson". The signature is fluid and cursive, with a long horizontal flourish at the end.

It has been proven this will not harm the water. This was built on the preserve as were other developments.

Protections are in place and we thank you. The western communities, and even this, can easily be "trapped" as we saw during the CSX closure. 40 people from this came to my ITID board meeting concerned about the 30+ mile detour and they WANT this to be completed, as promised decades ago.

Additional Comments.

The tremendous growth we have seen, and there is much more coming is placing add'l 10's of thousands of vehicles currently - and will be over 100K. Currently traffic cuts through the acreage, creating add'l traffic and cost burden to the residents on these residential roads. including additional crashes, esp those who are not familiar with our district roadways.

What happens, regarding the project, before letting, and between letting & initiation of construction?

Were environmental factors considered in the setting of the speed limit on this proposed extension?

What impacts will the planning, studies, and design of this project have on other projects, such as the Jenkins Rd extension project in St. Lucie County?

What factors were considered in deciding whether to build a roundabout or to build a signalized intersection at Orange Grove BLVD, Persimmon Blvd N 60th St, and the Ibis Entrance?

Apart from sidewalks/shared-used paths, will there be other amenities for pedestrians on this highway?

Subject: SR 7 Extension Public Meeting Comment

Dear Ms. McGregor:

Thank you for attending the Public Meeting for the State Road (S.R.) 7 Extension Project from State Road (S.R.) 704/Okeechobee Boulevard to Northlake Boulevard. We appreciate the written comment that you submitted regarding the project. Your comment will be included as part of the public records for this project.

Comment:

What happens regarding the project before letting and between letting & initiation of construction? Were environmental factors considered in the setting of the speed limit on this proposed extension? What impacts will the planning studies and design of this project have on other projects such as the Jenkins Rd extension project in St. Lucie County?

What factors were considered in deciding whether to build a roundabout vs a signalized intersection at Orange Grove Blvd, Persimmon Blvd, N 60th St, and the Ibis entrance?

Apart from sidewalks/shared used paths, will there be other amenities for pedestrians on this highway?

FDOT Response:

Before letting, the final engineering drawings are signed and sealed by the Engineer of Record. Once this is done, the project is advertised for Letting. Between Letting and Begin Construction, the contractor is awarded, contracts are developed for the contractor to begin work, and the contractor mobilizes to Begin Construction.

The existing road has a speed limit of 45 mph and this is being maintained throughout the corridor. The surrounding area (residential and environmentally sensitive area) are factors considered when setting the speed limit.

There are no direct impacts from SR 7 Ext. project on Jenkins Rd.

The proposed roundabouts undergo an intersection evaluation study when determining the implementation of a signalized intersection or a roundabout. Considerations include safety, operations, and cost.

For pedestrians, the 12 ft shared use path will be provided with bike exit/entrance ramps at the roundabouts. No other amenities are included.

For updates on the project, please visit the project website at SR7Extension.com. All public comments received during the open comment period will be displayed in a final summary and posted on the project website.

Should you have any questions about the project, please contact Scott Peterson, P.E. Project Manager for Florida Department of Transportation (FDOT) via mail at 3400 West Commercial Boulevard Fort Lauderdale, Florida 33309, by phone at 954-777-4416 or by email Scott.Peterson@dot.state.fl.us.

The SR7 extension will provide critical connectivity, improve regional mobility, reduce cut-through traffic in residential neighborhoods, and enhance overall safety. It will also support long-term economic stability & help protect property values by ensuring that infrastructure keeps pace with development.

This project is not just about convenience - it is about planning responsibly for the future of our community.

I respectfully encourage FDOT & decision-makers to move this project forward.

Subject: SR 7 Extension Public Meeting Comment

Dear Mr. Gordon:

Thank you for attending the Public Meeting for the State Road (S.R.) 7 Extension Project from State Road (S.R.) 704/Okeechobee Boulevard to Northlake Boulevard. We appreciate the written comment that you submitted regarding the project. Your comment will be included as part of the public records for this project.

Comment:

I am very concerned about how the noise & traffic will affect wildlife, especially protected species. They keep squeezing the arch smaller

FDOT Response:

The project has undergone extensive environmental study related to its potential for impacts to wildlife, including protected species. Specific studies related to secondary impacts, including noise impacts to wildlife, were conducted. The recommendations and requirements stemming from these studies have been incorporated into the design plans, and all secondary impacts are being mitigated appropriately to ensure that the environment is adequately protected. We've coordinated with and obtained concurrence from US Fish and Wildlife Service and Florida Fish and Wildlife Conservation Commission

As A 27+ years resident of the Western Communities
I Am 100% in favor of SRT to Northlake.
The Road was part of Agreement to give this approval to
develop SR 7 and to be built. For over 30+ year FDOT
elected official have not be honest with US AND
have cost WPB; Western Communities 100 of thousands
of dollars fighting the Road, NOT sure what their
special interest are but for the good of all
Western Communities BUILD the ROAD.
IT will not affect the environment but improvement
the safety's well being of economy of all the Western
Communities

Comment:

This project is 20 years behind schedule if they were worried about the environmental, they should've never let Ibis build on the west side Not to mention a dump with an incinerator on the east side of grassy waters The acreage Residence deserves to have a way in and out with all of the other development that's encroached on the acreage does not give it away in and out. This is a must and just the start of what we really need in the surrounding neighborhoods.

Subject: SR 7 Extension Public Meeting Comment

Dear Ms. Lopez:

Thank you for attending the Public Meeting for the State Road (S.R.) 7 Extension Project from State Road (S.R.) 704/Okeechobee Boulevard to Northlake Boulevard. We appreciate the written comment that you submitted regarding the project. Your comment will be included as part of the public records for this project.

Comment:

We need these projects to start ASAP to relieve the major traffic issues we have.

FDOT Response:

Your support for the SR 7 project is noted.

For updates on the project, please visit the project website at SR7Extension.com. All public comments received during the open comment period will be displayed in a final summary and posted on the project website.

Should you have any questions about the project, please contact Scott Peterson, P.E. Project Manager for Florida Department of Transportation (FDOT) via mail at 3400 West Commercial Boulevard Fort Lauderdale, Florida 33309, by phone at 954-777-4416 or by email Scott.Peterson@dot.state.fl.us.

Scott Peterson, P.E.

District 4 Roadway Design Engineer
(954) 777-4416

Subject: SR 7 Extension Public Meeting Comment

Dear Mr. Fialkowski:

Thank you for attending the Public Meeting for the State Road (S.R.) 7 Extension Project from State Road (S.R.) 704/Okeechobee Boulevard to Northlake Boulevard. We appreciate the written comment that you submitted regarding the project. Your comment will be included as part of the public records for this project.

Comment:

I'm in favor of the project

FDOT Response:

Your support for the SR 7 project is noted.

For updates on the project, please visit the project website at SR7Extension.com. All public comments received during the open comment period will be displayed in a final summary and posted on the project website.

Should you have any questions about the project, please contact Scott Peterson, P.E. Project Manager for Florida Department of Transportation (FDOT) via mail at 3400 West Commercial Boulevard Fort Lauderdale, Florida 33309, by phone at 954-777-4416 or by email Scott.Peterson@dot.state.fl.us.

Scott Peterson, P.E.

District 4 Roadway Design Engineer

1	Comment Form	Mayor Jeffrey Hmara	2220 Ridgewood Cir. Royal Palm Beach, FL 33411	jhmara@royalpalmbeachfl.gov	I am the Mayor of Village of Royal Palm Beach. I fully support the extension of SR 7 from Okeechobee Blvd. to Northlake Blvd. I understand the environmental concerns residents have raised. I believe that FDOT has included multiple layers of protection to prevent pollution in adjacent natural areas and protect the water supply. This project has important safety and emergency management benefits including response times and hurricane evacuation flexibility. A real-world experience happened a couple of months ago when Northlake Blvd. was closed due to construction of a railroad crossing. For more than 10 days, residents were forced to use detours of about 30 miles. The residents and businesses experienced frustration, delays, and isolation. That made one thing crystal clear: when a major corridor is compromised, we need redundant routes that keep communities connected. SR 7 extension will likely be one of several critical connections to be part of the ongoing Countywide Transportation Plan here in Palm Beach County. SR 7 Extension must be completed ASAP.	We appreciate your support and your insights regarding the importance of SR 7 as a redundant route for emergency management and community connectivity as well as the environmental protections and safety features.
2	Comment Form	Chi Man Tan	13399 53 rd Ct. North West Palm Beach, FL 33411	allentanat4@gmail.com	Infrastructure drives property value. Supporting SR7 is supporting the long-term value of our homes.	Your support for the SR 7 project is noted.
3	Comment Form	Weiwei Wu	14453 73 rd St. N Loxahatchee, FL 33470	weiweiwu.wu@gmail.com	As development continues westward, our infrastructure must keep up. The SR 7 extension is a necessary step for responsible long-term planning.	Your support for the SR 7 project is noted.
4	Comment Form	Yuchang Tan	12816 67 th St. N West Palm Beach, FL 33412	yuchang.tan@gmail.com	Traffic is not going away - smart infrastructure is the solution. SR7 is an investment in our community's future.	Your support for the SR 7 project is noted.

5	Comment Form	Weiwei Wu	95 Westwood Cir. E West Palm Beach, FL 33411	weiweiwu.wu@gmail.com	SR7 Extension is critical for improving safety and reducing daily traffic congestion in our growing community. I fully support moving this project forward.	Your support for the SR 7 project is noted
6	Comment Form	Christophe Karch	13125 Tangerine Blvd. West Palm Beach, FL 33412	chris@cka-inc.com	<ol style="list-style-type: none"> 1. We would like to see an environmental feature parking/ walkway on the EW section along M-Canal accessing the north of the preserve that we own and currently have no access. This should be a county park. 2. Conditions need to be accommodated for security gates/houses at Orange Blvd & Persimmon Blvd connections, currently no stacking distance is provided. 3. Lighting needs to be sensitive to wildlife. 4. Why have we been blocked from 240' of ROW at north end of project for over 20 years!? 	<ol style="list-style-type: none"> 1. The east-west portion of SR 7 adjacent to the M-Canal has a 10 ft. shared use path designated for pedestrian and bicycle use. We encourage you to reach out to Palm Beach County for the need of a County park. 2. The SR 7 project limits along Orange Grove Blvd and Persimmon Blvd end east of 110th Ave and do not extend beyond this. This project does not impact any gates or homes and is within the right of way. 3. Proposed lighting fixtures are wildlife sensitive. 4. The fence in this area is present to prevent unwanted trespass into unimproved areas of the right of way for the safety of the public and the environment.
7	Comment Form	Diane Queller	123 Sunflower Cir. Royal Palm Beach, FL 33411	dqueller@bellsouth.net	<p>I have been a resident of RPB for 40+ years. I am VERY concerned about the impact of traffic in my community!! It is very unsafe!! Our lives are in danger! More traffic - more accidents - more injuries + fatalities. PBCFR has been having response times increase which means less rescue care and less positive outcomes.</p> <p>Over 20 years the city of West Palm Beach has been fighting this road. How can they endanger its residents all these years!!</p>	Thank you for sharing your concerns as a long-term resident. Improving emergency response times is a benefit of the SR 7 Extension project.
8	Comment Form	John Yeend	9908 Southern Blvd. Royal Palm Beach, FL 33411	Response sent via first class mail.	<ol style="list-style-type: none"> 1. Environment needs to be focal point. 2. Habitat fragmentation affecting protected species needs to be addressed during & post construction 3. Make sure you consider increased runoff pollution & your long-term water quality Basically Scott, make sure you take the environment into consideration & ask yourself when is enough, enough. 	Thank you for your comments. Environmental protection is a top priority. A few key measures are reduction of road footprint to minimize environmental impacts and adding several protection measures in place, including specialized wildlife fencing and animal crossings under the proposed bridges. Ongoing monitoring for species has continued through the years and will continue throughout construction.

						We are providing two conservation easements for this project. Our drainage system is designed to catch and treat road runoff within the right-of-way. These measures ensure the project provides a needed traffic connection while keeping our local wildlife and water safe. South Florida Water Management District has studied our plans and permit application carefully and has issued a permit indicating they concur that the proposed design adequately accommodates the drainage and protects the environment
9	Comment Form	Elizabeth Accomando	6521 Carol St. Loxahatchee, FL 33470	elizabethaccomando@gmail.com	<p>It has been proven this will not harm the water. Ibis was built on the preserve as were other developments. Protections are in place and we thank you. The western communities, and even Ibis, can easily be 'trapped' as we saw during the CSX closure.</p> <p>40 people from this came to my IT ID board meeting concerned about the 30+ mile detour and they WANT this to be completed, as promised decades ago.</p> <p>Additional Comments:</p> <p>The tremendous growth we have seen, and there is much more coming is placing additional 10's of thousands of vehicles currently - and will be over 100k. Currently traffic cuts through the acreage, creating additional traffic and cost burden to the residents on those residential roads, including additional crashes, especially those who are not familiar with our district roadways.</p>	We appreciate your support and your insights regarding the importance of SR 7 as a redundant route to improve community connectivity. Your support has been noted.

10	Comment Form	Jayden McGregor	5864 W Corso Ave. Port St. Lucie, FL 34986	thecrazibucs@gmail.com	<p>What happens regarding the project before letting and between letting & initiation of construction?</p> <p>Were environmental factors considered in the setting of the speed limit on this proposed extension?</p> <p>What impacts will the planning studies and design of this project have on other projects such as the Jenkins Rd extension project in St. Lucie County?</p> <p>What factors were considered in deciding whether to build a roundabout vs a signalized intersection at Orange Grove Blvd, Persimmon Blvd, N 60th St, and the Ibis entrance?</p> <p>Apart from sidewalks/shared used paths, will there be other amenities for pedestrians on this highway?</p>	<p>Before letting, the final engineering drawings are signed and sealed by the Engineer of Record. Once this is done, the project is advertised for Letting. Between Letting and Begin Construction, the contractor is awarded, contracts are developed for the contractor to begin work, and the contractor mobilizes to Begin Construction. The existing road has a speed limit of 45 mph, and this is being maintained throughout the corridor. The surrounding area (residential and environmentally sensitive area) are factors considered when setting the speed limit.</p> <p>There are no direct impacts from SR 7 Ext. project on Jenkins Rd. The proposed roundabouts undergo an intersection evaluation study when determining the implementation of a signalized intersection or a roundabout. Considerations include safety, operations, and cost.</p> <p>For pedestrians, the 12 ft shared use path will be provided with bike exit/entrance ramps at the roundabouts.</p>
11	Comment Form	Caijun Qian	127 Cayo Costa Ct. Royal Palm Beach, FL 33441	thehou@hotmail.com *The email address was illegible; the address shown reflects our best determination.	I totally support this project. It will bring conveniences to local residents.	Your support for the SR 7 project is noted.
12	Comment Form	Haiyan Ou	474 Westwood Cir. W West Palm Beach FL 33411	ouhelen9@gmail.com	<p>The SR7 extension will provide critical connectivity, improve regional mobility, reduce cut-through traffic in residential neighborhoods, and enhance overall safety. It will also support long-term economic stability & help protect property values by ensuring that infrastructure keeps pace with development.</p> <p>This project is not just about convenience - it is about planning responsibly for the future of our community.</p> <p>I respectfully encourage FDOT & decision-makers to move this project forward.</p>	Your support for the SR 7 project is noted.

13	Comment Form	Bill Gordon	2375 Sapphire Cir. West Palm Beach, FL 33411	wgordon949@msn.com	I am very concerned about how the noise & traffic will affect wildlife, especially protected species. They keep squeezing the arch smaller.	The project has undergone extensive environmental study related to its potential for impacts to wildlife, including protected species. Specific studies related to secondary impacts, including noise impacts to wildlife, were conducted. The recommendations and requirements stemming from these studies have been incorporated into the design plans, and all secondary impacts are being mitigated appropriately to ensure that the environment is adequately protected. We've coordinated with and obtained concurrence from US Fish and Wildlife Service and Florida Fish and Wildlife Conservation Commission.
14	Comment Form	Christine Benkly	428 La Mancha Ave. Royal Palm Beach, FL 33411	cbenkly@gmail.com	As a resident of Royal Palm Beach for over 20 years, we need relief from the traffic congestion created by continuing development of western communities including Westlake & Avenir. The 3 north/south connectors between Okeechobee and Northlake are insufficient to handle traffic volumes during emergencies & road closures. Thank you for moving this project forward!	Your support for the SR 7 project is noted.
15	Comment Form	Keith Jordano	12751 Orange Blvd. West Palm Beach, FL 33412	keith@jordanogroup.com	As a 27+ year resident of the western communities, I am 100% in favor of SR7 to Northlake. The road was part of the agreement to give Ibis approval to develop SR7. For over 30+ years our elected officials have not be honest with us and have cost WPB & western communities 100's of thousands of dollars fighting the road, not sure what their special interests are but for the good of all western communities BUILD THE ROAD. It will not affect the environment but will improve the safety & wellbeing of economy of all the western communities.	Your support for the SR 7 project is noted.

21	Website Comment	Joseph Qian	11952 60th St. N, West Palm Beach, FL 33411	jsqian@yahoo.com	I hope the project starts as soon as possible. This will make it to access freeway more conveniently and efficiently for all the families in my neighborhood.	Your support for the SR 7 project is noted.
22	Website Comment	Quincy Wang	10525 Willow Oak Ct., Wellington, FL 33414	quincy.wang@comcast.net	I 100% fully support FDOT to move forward with the expansion of the SR7 project. This is a wonderful project for Palm Beach!	Your support for the SR 7 project is noted.
23	Website Comment	Yaqin Zhang	10525 Willow Oak Ct, Wellington, FL Wellington	yaqin.zhang@comcast.net	I respectfully urge FDOT to proceed with the expansion of the SR7 project.	Your support for the SR 7 project is noted.
24	Website Comment	Yan Sun	11952 60th Street N, West Palm Beach, FL 33411	yan.susan@gmail.com	I am writing to express my strong support for the SR7 extension This project is essential for improving the quality of life for local residents by providing more efficient commute times and safer roadways. It is a necessary step for ensuring the economic resilience of our neighborhood and supporting our local businesses. I respectfully urge the decision-makers at FDOT to prioritize and advance this project without further delay.	Your support for the SR 7 project is noted.
25	Website Comment	Dana Middleton	13095 Feathering Way, Palm Beach Gardens, FL 33412	danamiddleton@comcast.net	My name is Dana Middleton, and I am proud to serve as Vice Mayor of Palm Beach Gardens. I am also a resident of Avenir, one of the western communities directly impacted by this long-planned infrastructure project— State Road 7 Extension. On October 9, 2025, the City Council unanimously adopted Resolution 79-2025 expressing our strong support for the immediate construction of the State Road 7 Extension from	Your support for the SR 7 project is noted.
26	Virtual Comment	Sal Faso		salfaso@comcast.net	How much traffic will State Road 7 send to Northlake Blvd during the morning, afternoon, and evening?	*Please see the tables outlining the existing volumes and the future volumes with the build and no-build scenarios located at the end of this document.

Document		Contact Information			Comments Received	Comments Response
No.	Type	Name	Address	E-Mail Address	Comments	Final Comment Response 04/2026
27	Virtual Comment	Sal Faso		salfaso@comcast.net	Why is FDOT withholding information from the traffic analysis?	The Traffic Analysis Technical Memorandum is on the website located at SR 7 Traffic Analysis Tech Memo_070723
28	Virtual Comment	Sal Faso		salfaso@comcast.net	Where is the termination of State Road 7 going north?	The north end of the project will terminate at Northlake Blvd.
29	Virtual Comment	Sal Faso		salfaso@comcast.net	Will there be an EIS as the CWA mandates?	FDOT conducted an Environmental Assessment through the National Environmental Policy Act (NEPA) process in order to determine the level of analysis. After field work, data analysis and Resource Agency coordination, Federal Highway Administration (FHWA) determined a Finding of No Significant Impact (FONSI). The project is undergoing Clean Water Act (CWA) review with the USACE, and they will complete their own NEPA determination.
30	Virtual Comment	Sal Faso		salfaso@comcast.net	Will there be impacts to Northlake Boulevard?	The project has limited impacts to Northlake Blvd including resurfacing and re-stripping of the intersection, new signals and adding a left turn lane.
31	Virtual Comment	Lynda Richardson		johndylan06@aol.com	How will the added lanes and increase of traffic be taken care of?	The additional lanes are proposed to alleviate the additional traffic congestion in the area, increase regional connectivity, and improve emergency responses times. The additional lanes will be properly maintained by the FDOT.

Document		Contact Information			Comments Received	Comments Response
No.	Type	Name	Address	E-Mail Address	Comments	Final Comment Response 04/2026
32	Virtual Comment	Lynda Richardson		johndylan06@aol.com	Will anything be done for noise levels for PortoSol?	All communities adjacent to the corridor were analyzed and included in the noise study for the project. PortoSol is not predicted to exceed allowable noise thresholds and therefore not qualified for sound barriers. It should be noted that the PortoSol community have existing large berms with landscaping separating them from the road. This project will not impact these berms, and they will remain in place.
33	Virtual Comment	Lynda Richardson		johndylan06@aol.com	Is the roadway adopted to keep up with cleaning debris?	This road is under the jurisdiction of FDOT and will be maintained to ensure a safe, reliable, and efficient system.
34	Virtual Comment	Lynda Richardson		johndylan06@aol.com	When was the last noise study conducted?	The noise study was updated and reconfirmed in 2025.
35	Virtual Comment	Lynda Richardson		johndylan06@aol.com	Will there be street lighting along the PortoSol berm area?	No, there will not be any street lighting along the PortoSol berm area.
36	Virtual Comment	Lynda Richardson		johndylan06@aol.com	Will there be bike bumpers along State Road 7?	No there will not be any bike bumpers or any other type of raised bike lane separation along State Road 7. Please note, east and north of the 60 th street roundabout, a shared path behind the curb will be provided.

Document		Contact Information			Comments Received	Comments Response
No.	Type	Name	Address	E-Mail Address	Comments	Final Comment Response 04/2026
37	Virtual Comment	Uman Myron		myronuman2@comcast.net	Are the current roadway plans posted online?	Yes. Please visit: https://www.sr7extension.com/SR7_Documents_and_Publications.html
38	Virtual Comment	Uman Myron		myronuman2@comcast.net	I looked up the roadway plan on that URL, and it is not up to date, at least it does not show the left turn movement at the roundabout, northbound into west bound entrance into Ibis. What else has changed since the last document posted?	The commitment for the left turn into Ibis will be included in the plan. There are no other significant changes to the plan.
39	Virtual Comment	Uman Myron		myronuman2@comcast.net	How high above the adjacent berm will the bridge over the M Canal be, to the top of the higher sidewalk?	It will be approximately 29' from the elevation of the berm to the top of the higher sidewalk on the bridge.
40	Virtual Comment	Jon Kramer		jkramerdc@comcast.net	Will there be access to the Ibis Golf and Country Club when traveling north at the roundabout?	Yes, access to the Ibis Golf and Country Club will be provided when traveling north through the roundabout.
41	Virtual Comment	Menke Lee		junk12289@att.net	It is my understanding that the extension of SR7 to Northlake Blvd was part of a larger agreement with the City of WPB (CoWPB) that included the area now as IBIS Country Club to be incorporated into the CoWPB. If true, then why doesn't PBC sue the CoWPB for breach of contract, take IBIS off the City tax rolls, and sue the City for all the tax revenue raised by them for the last 35 years returned to the County?	Ibis Golf and Country Club is part of the City of West Palm Beach. FDOT has no comment on potential legal actions by other parties.

Document		Contact Information			Comments Received	Comments Response
No.	Type	Name	Address	E-Mail Address	Comments	Final Comment Response 04/2026
42	Virtual Comment	Menke Lee		junk12289@att.net	Yes, but I heard that it was approved as part of a larger agreement with the city that included the incorporation of Ibis into the City. If so, they broke the agreement. In other words, they were approved for incorporating Ibis by agreeing to the extension of SR7. If they now back out of allowing SR7 to be extended to Northlake, aren't they in breach of contract?	Ibis Golf and Country Club is part of the City of West Palm Beach. FDOT has no comment on potential legal actions by other parties.
43	Virtual Comment	Laura Caswell		vegas75@bellsouth.net	Will they be adding noise barrier walls from Okeechobee to 60th when they increase to the 4 lanes on the west side of State Road 7?	All communities adjacent to the corridor were analyzed and included in the noise study for the project. The stretch of SR 7 from Okeechobee Blvd to 60 th St does not have a continuous stretch of sound barrier proposed as it is not predicted to exceed allowable noise thresholds and therefore not qualified for sound barriers. A sound barrier is proposed at Baywinds community.
44	Virtual Comment	Laura Caswell		vegas75@bellsouth.net	Will there be noise thresholds at the La Mancha community?	All communities adjacent to the corridor were analyzed and included in the noise study for the project. La Mancha is not predicted to exceed allowable noise thresholds and therefore not qualified for sound barriers.
45	Virtual Comment	Laura Caswell		vegas75@bellsouth.net	Are there any plans to open access to State Road 7 at Madrid Avenue?	This project has no plans to create a connection to Madrid Street.

Document		Contact Information			Comments Received	Comments Response
No.	Type	Name	Address	E-Mail Address	Comments	Final Comment Response 04/2026
46	Virtual Comment	Paul Mullings		pmulling@msn.com	Why is there only a 16-foot noise barrier at Baywinds, when there's a 20-foot barrier at Ibis?	At Baywinds, along with the proposed noise barrier location, the existing ground elevation varies. As a result, the effective noise barrier height varies from 16 ft. to 20 ft., with an average effective noise barrier height of 17.5 ft.
47	Virtual Comment	Victor Martin		vicmartin4a@gmail.com	When will the construction of the project start?	Construction is anticipated to begin Spring 2028.
48	Virtual Comment	Victor Martin		vicmartin4a@gmail.com	Is this project still in court? If so, when will the appeal be heard?	The Project has an approved South Florida Water Management permit upheld in a Final Order. The City of West Palm Beach has filed an appeal with the Fourth District Court of Appeal. No oral arguments have been scheduled.
49	Virtual Comment	Victor Martin		vicmartin4a@gmail.com	What will happen to the project if the appeal is upheld?	The FDOT will have to review the ruling and determine our course of action.
50	Virtual Comment	Renaud Olivier		olivierrenaud@stanleygroup.com	There is opportunity to connect the Owahee Trail (a City of WPB recreational trail) to the project's shared use path. This would provide logical connectivity with the proposed 12-ft shared use path along SR-7 and the surrounding communities. Can the project provide this connection?	The project is not proposing to construct this connection. It could potentially be constructed in the future with the cooperation of the City of West Pam Beach and the County.
51	Virtual Comment	Renaud Olivier		olivierrenaud@stanleygroup.com	Can the project provide a connection to Owahee Trail?" The Owahee Trail location closest to SR-7 is where project 229664-6 turns north over the MCanal. The trail connection could occur within the FDOT existing right of way, a "switchback" idea perhaps can be considered to get Owahee trail up to the proposed SR7 grade.	There is a shared use path on the east side of the proposed new roadway. It will connect to the existing sidewalk south of the M Canal. No connection will be provided to the Owahee Trail.
52	Virtual Comment	Name not provided		no-reply@test.org	Are there any planned nature walks along the new road to include solar power gazebos or anything solar related?	There is a shared use path on the east side of the proposed new roadway. It will connect to the existing sidewalk south of the M Canal. Lighting is limited along the corridor due to potential impacts to wildlife. No other amenities are proposed.

Document		Contact Information			Comments Received	Comments Response
No.	Type	Name	Address	E-Mail Address	Comments	Final Comment Response 04/2026
53	Virtual Comment	Name not provided		no-reply@test.org	Will the road increase flood risk or water discharge?	There will not be an increase in flood risk. Stormwater will usually be contained within the roadway right-of-way. Infrequent "bleed-down" discharges will be conveyed to the north side of Northlake Boulevard. The discharge volume will be negligible compared to the natural movement of runoff in that area during regular storm events.
54	Virtual Comment	Name not provided		no-reply@test.org	Will there be any underground infrastructure running water / electric / fiber? Wondering if doing construction can take care of all future needs.	There is no new water infrastructure proposed. For the proposed signal equipment, there is fiber interconnect proposed for Palm Beach County. For the proposed lighting, there are electrical conductors proposed to power the lighting system.
55	Virtual Comment	Name not provided			Will there be an update to the plans to include the left turn movement at the roundabout, northbound into westbound Ibis entrance?	Yes, the plans will be revised to allow this movement. The commitment for the left turn into Ibis will be included in the plan.
56	Virtual Comment	Christopher Karch		chris@cka-inc.com	Will the lights and entrances/exits at Orange Boulevard and Persimmon Boulevard account for the existing security gates, given that these roads easements are privately owned and the community may consider restricting access to non-residents?	The Department is not constructing anything that will prevent other entities from making future changes to the roads mentioned.
57	Virtual Comment	Christopher Karch		chris@cka-inc.com	What capacity is the round-about designed for at 60th street north and SR7 as this is a route to Westlake that is being negotiated? Please recall that the easements in the Acreage/Loxahatchee have been deemed as private by the FI Supreme Court...this past week.	The results of the operational analysis demonstrate the 60 th St roundabout accommodates the design year projected traffic volumes.
58	Virtual Comment	Christopher Karch		chris@cka-inc.com	Will there be a pull-off/parking on the E/W section along the Fox Property northern border for access to those who want to access that natural preserve?	There are no provisions in the design for pull-off parking.

59	Virtual Comment	Christopher Karch		chris@cka-inc.com	Are there any plans to extend State Road 7 north to Beeline Highway or to PGA Blvd?	No, the Department has placed the transportation rangeline R/W from Northlake Blvd to SR 710 into conservation
60	Virtual Comment	Sandra Mann		smann@pbc.gov	Where is the management access gate for access to the north end of Pond Cypress Natural Area?	The locations and dimensions for the gates will be provided in the plans.
61	Virtual Comment	Sandra Mann		smann@pbc.gov	Has PBC ERM reviewed the proposed location of the management access gate?	We are coordinating with PBC ERM for the management access gate location.
62	Virtual Comment	Hanh Vo		thevofam@gmail.com	Will there be a traffic light at the entrance/exit from PortoSol community?	Yes, there will be a traffic light at PortoSol/Regalo Dr.
63	Virtual Comment	Lucas Alvarez		cecsouthflorida@gmail.com	Is there a reason as to why not every new intersection be a roundabout instead of a traffic signal? I am primarily talking about the new signalized intersections except Northlake Boulevard.	In accordance with the FDOT Intersection Control Evaluation (ICE) process, a roundabout was evaluated for Orange Grove Blvd and Persimmon Blvd. The results found that a roundabout would not accommodate the projected traffic volumes for the design year during peak AM and PM hours
64	Virtual Comment	Merlene	Reid	mreid55@hotmail.com	What is the criteria to get that buffer wall by PortoSol? Similar to Baywinds, it appears the traffic will be coming pretty close to the PortoSol Development with the addition of another lane.	All communities adjacent to the corridor were analyzed and included in the noise study for the project. PortoSol does not have predicted noise levels that exceed allowable thresholds as a result of this project. It should be noted that the PortoSol has an existing large berm with landscaping separating them from the road. This project will not impact on these berms, and they will remain in place.
65	Email Comment	Matthew Ball	5200 Baywinds Drive West Palm Beach, FL 33411	mball@castlegroup.com	1. Can you confirm if a sound wall is still in the plans for the part that abuts Baywinds - We are right at the start of Okeechobee Blvd and SR7.	1. Yes, a sound barrier wall is still proposed at Baywinds. 2. Mr. Ball, No noise analysis was done for the area east of SR 7 on Okeechobee as part of our project. However, traffic

					<p>2. We know a wall is part of the plan in the location of the red line on the attached.</p> <p>Was an analysis done of increased traffic which will result on Okeechobee to see if one would be needed where the blue line is?</p>	<p>modeling did capture this area, and the project is expected to cause a slight decrease in traffic on Okeechobee Blvd. east of SR 7 over the future no-build condition.</p>

*The following tables outline the existing volumes and the future volumes with the build and no-build scenarios:
